### USES

Cleartox is a water-soluble pentachlorophenol preservative for use on wood. It is made by combining a water-soluble pentachlorophenol with a water-soluble preservative. Wood treated with Cleartox may be painted over with any type of paint. For treatment of wood, use Cleartox in patches, stains, or sprays. Do not use Cleartox on wood that has been treated with a preservative. Cleartox is not intended for use on wood that has been treated with a preservative. Cleartox is not intended for use on wood that has been treated with a preservative. Cleartox is not intended for use on wood that has been treated with a preservative.

### WARNING

Keep Out of Reach of Children.
