

DIRECTIONS FOR USE

INITIAL DOSE: 1 Gal. Swim-Kleen to 50,000 gals. water.

MAINTENANCE DOSE: 1 Qt. Swim-Kleen to 50,000 gals. water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance.

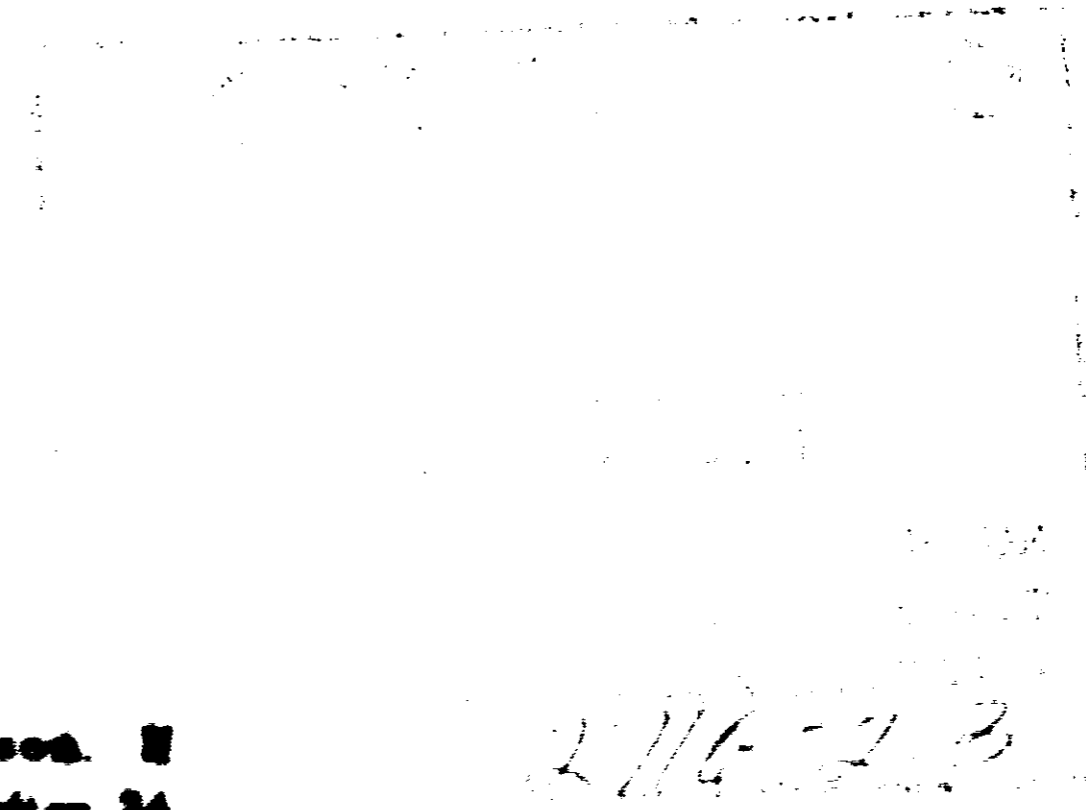

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make up water is added at the rate of more than 10% per week of pool capacity, add 1 qt. Swim-Kleen for each 10,000 gals. of fresh make up water added per week.

When swimming season is over, add 1 gal. of Swim-Kleen to 50,000 gals. of water in the pool. This dose helps provide a measure of control of algae growth during the Winter months. This treatment will also help the cleaning of the pool before it is returned to use the following season.

Always empty container thoroughly with water and discard.

NET CONTENTS One Gallon (128 Fl. Oz.)

2716-2

Concentrate

SWIM-KLEEN

ACTIVE INGREDIENTS

- n-Alkyl (60% C₁₂-C₁₈)
- dimethyl benzyl
- n-Alkyl (60% C₁₂-C₁₈)
- ethylbenzyl

INERT INGREDIENTS

USDA Reg. No. 2716-2

DANGER: KEEP OUT OF REACH OF CHILDREN

Cameraman's Note

Poor Copy

When Swim-Kleen is used as directed, it will kill and prevent the re-plant of *Chlorella pyrenoidosa* (green), *Phormidium* spp. (black algae), *Phormidium retzii* (Square D algae), *Microcystis* (blue-green) and other swimming pool algae.

This product is toxic to fish. Do not discharge treated effluent into lakes, streams or ponds.

Swim-Kleen is compatible with most commonly used swimming pool chemicals but should not be mixed with soap or other cleaners or combined with other water-treating chemicals. Swim-Kleen works best when added by itself directly to pool water. Swim-Kleen at use dilution is non-corrosive to inanimate surfaces.

DANGER: KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. ~~See eye~~ call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg white, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosa damage may contraindicate the use of gastric lavage. Measure respiratory and circulatory effect. respiratory depression, and convulsion may be needed.
