

Directions for use

Kemec may be used as an aid in the control of Brown Dog Ticks on dogs and premises and is effective against fleas on dogs and cats.

For control of ticks & fleas on dogs & cats: Dust powder liberally over the animal and rub thoroughly into the skin. Be sure to apply also to the feet, between the toes and on the legs. Comb out dead ticks a few hours after treatment.

When dusting mother cats, remove the mother for treatment and return her to the kittens after one or two hours. Repeat at weekly intervals if needed.

In kennels, dog houses: Dust in and around sleeping quarters and other areas where ticks and fleas occur.

Caution: Harmful if swallowed or inhaled. Avoid breathing dust and contact with skin; wash thoroughly after using. Keep out of reach of children. Avoid storage near feed and food products.

Do not treat kittens or puppies under four weeks of age. Minimize treatment of eyes and face.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.
