Flea and Tick Powder

DIRECTIONS FOR USE

The control of Brown Dog Ticks on dogs, in kennels and other areas is becoming more and more difficult.

TRIX Flea and Tick Powder has been developed especially to aid in the control of Brown Dog Ticks on dogs and premises. It is also very effective against fleas on dogs and cats.

FOR CONTROL OF TICKS AND FLEAS ON DOGS AND CATS: Dust powder liberally over the animal and rub thoroughly into the skin. Be sure to apply also to the feet, between the toes, and on the legs. Comb out dead ticks a f w hours after treatment TRIX may also be used to dust mother cats and young kittens not less than 4 weeks old. Repeat at weekly intervals if needed.

IN KENNELS, DOG HOUSES, ETC.: Dust in and around sleeping quarters and other areas where ticks and fleas occur.

CAUTION: Harmful if swallowed or inhaled. Avoid breathing dust and repeated contact with skin; wash thoroughly after using. Keep out of reach of children. Minimize treatment of eyes and face; sensitive cats may exhibit temporary and non harmful salivation. Avoid storage near feed and food products.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.
