STARBAR  
INSECT STRIP

TAXE TIME

DESERVE LABEL  
DIRECTIONS

Controls flies, mosquitoes, gnats and other small flying insects and silverfish.

Use in homes, cabins, motels, dairy barns, and animal shelters.

### DIRECTIONS FOR USE

#### Homes • Cabins • Motels

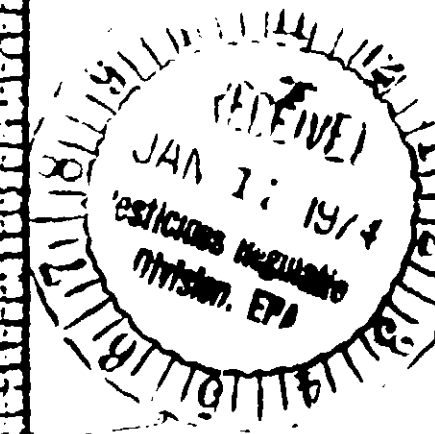

To control flies, mosquitoes, gnats, othe small flying insects and the reduction of silverfish, place one Starbar Insect Strip per average size room (10 x 10 x 10 feet) or per 100 square feet of floor area. Normally this is effective for three months. Replace strips if effectiveness diminishes. For control of flies in garbage cans attach one Starbar Insect Strip inside of an average size garbage can (20 gallon capacity). One unit will be effective for the entire fly season. Keep lid on garbage can.

#### Animal Buildings

To control flies, mosquitoes, gnats and other small flying insects in Horse barns, Dairy barns, Calf barns, Stables, Pig Parlors, Dog kennels, Poultry houses, and other farm buildings, suspend one Starbar Insect Strip (10" strip—3.7 ozs.) for each 100 square feet of floor space. If more than one strip is required, distribute them equally over areas to be treated. Weather and other conditions such as strong drafts may alter the performance, but this treatment is usually effective for one season. Replace strips if effectiveness diminishes.

#### Catch Basins

For the control of mosquitoes breeding in catch basins, suspend one Starbar Insect Strip approximately 10 inches above the water line in each basin. Each unit should give effective control for 10 to 15 weeks. Replace Strip when effectiveness diminishes.

ACCEPTED

NOTICE

CAUTION: Do not get in mouth, harmful if swallowed. After prolonged storage, a small amount of liquid may form on strip. Do not get liquid in eyes. Wear rubber gloves while handling or hanging. Wash hands thoroughly with soap and water after handling strip. Do not contaminate food, water, food containers or cooking utensils. Keep out of reach of children. Do not place in hospital or clinic rooms, such as patient rooms, wards, nurseries, operating or emergency areas. Do not use in any rooms where infants, the sick, or aged are or will be present for any extended period of confinement. Do not use in kitchens, restaurants, or areas where food is prepared or served.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.

Use of the packaged product is licensed under Shell's U.S. Patents 2,956,073 and 3,116,201 for use as an insecticide generator only. Not to be taken internally by humans or animals.
