

TRIX-DIP FOR DOGS

DIRECTIONS FOR USE

PREPARE DOGS FOR DIPPING: Water dogs before dipping to prevent drinking of dip. Do not allow dip to contact eyes of dog. One drop of glycerine in each eye will prevent irritation from splashing. Wear rubber gloves while dipping dogs.

FOR CONTROL OF TICKS AND FLEAS ON DOGS: Dilute 1 pint of TRIX-DIP with 3 gallons (5 ounces to 1 gallon) of water and dip, sponge or spray dogs thoroughly. Use syringe to wash inside of ears with dip. Do not allow dog to remain in dip bath for more than 30 seconds. Dry animals out of drafts. Do not use this product on cats.

FOR CONTROL OF TICKS AND FLEAS IN DOG HOUSES, LAWNS AND OUTDOOR AREAS: Dilute 1 pint of TRIX-DIP with 1 gallon of water and spray infested areas. Pay particular attention to places where dogs have been sleeping or resting. Treat cracks and crevices in floors, walls, ceilings, and door facings. Repeat as

necessary if tick activity is observed. **DO NOT DIP DOGS WITH THIS CONCENTRATION.**

CAUTION: Harmful if swallowed. Avoid breathing spray mist. Concentrate may cause skin damage. Do not get in eyes, on skin or on clothing. Wear waterproof gloves and goggles when handling concentrate. In case of contact, immediately remove contaminated clothing and flush eyes or skin with plenty of water; for eyes get medical attention. Avoid storage near food and food products.

ANTIDOTE: External—wash with soap and water. Internal—call a physician immediately. Large doses of Atropine are antidotal. Give emetic of mustard.

NOTICE TO BUYER: SELLER makes no warranty of any kind, express or implied, concerning the use of this product. BUYER assumes all risk of use or handling whether in accordance with directions or not.
