

[2724-141]

Directions for use

Use in Homes, Restaurants, Hospitals, Kitchens, Motels, Bakeries, Industrial Plants, Warehouses, and other areas where foods are prepared and processed. Follow instructions for specific pests as listed below, repeating treatments as necessary. Do not use as a space spray in food processing plants when plant is in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when plant is not in operation.

Do not remain in treated areas and ventilate the area after treatment is completed.

Flies, Mosquitoes, Gnats, Wasps, and other small flying insects—Spray upwards with a sweeping motion for 4-6 seconds for each 1000 cu. ft. Keep room closed for 15 minutes after treatment.

Roaches, Waterbugs, Silverfish, Ants—Spray liberally into breeding and hiding places such as cracks around baseboards, cabinets, walls and woodwork. Thoroughly treat trails, runs, and other places where pests are seen. Spray directly on insects when possible. Repeat as necessary.

Spiders, Centipedes, Sow Bugs, Crickets—Spray directly on webs and places where these pests crawl. Spray directly on insects when possible.

Carpet Beetles, Moth Larvae—Clean and air contaminated materials before treating. Spray directly on pests, repeating treatment as needed. Articles not stored in moth tight container should be retreated every 30 days.

Bedbugs—Spray cracks and surfaces in baseboards, floors, moulding, and other contaminated areas. Take bed apart and treat mattress, springs, frame, and bedding. To protect woolens apply thoroughly, including seams and folds.

Fleas—Spray floors, floor coverings, cracks, bedding, sleeping quarters, and other areas frequented by pets. Repeat as necessary. Do not spray pets.

Caution: Avoid contamination of food and foodstuffs. Do not puncture or incinerate. Do not place on stove or other places where temperature will exceed 120° F. Do not spray plastics or vinyl tile directly. Cover fish bowls and remove birds when spraying. Protect foods from direct spray. Keep out of reach of children. Avoid prolonged inhalation or skin contact. Hold at least 3 ft. from objects when spraying.
