

Shake well before using

Directions for use: Shake well and press button to release foam. Hold nozzle so it touches the hair and apply a strip of foam down the back, extending from the neck area to approximately one inch from the base of the tail. The foam will penetrate the hair, breaking down gradually to produce an effective back line coverage. This treatment will control fleas on cats and kittens. Repeat treatment if necessary, but not more than once weekly. Do not allow foam to get in eyes or on scrotum.

Caution: Do not contaminate feed, water, or food-stuffs. Keep out of reach of children. Wash hands after use. Contents under pressure. Do not store near sources of heat. Never puncture container or throw into fires or incinerators. Harmful if swallowed. Avoid contact with skin. Avoid breathing of vapors.

Do not treat kittens less than four weeks old.

ACTIVE INGREDIENTS:

Carbaryl (1-Naphthyl Methylcarbamate)	0.500%
Pyrethrins	0.050%
Technical piperonyl butoxide*	0.100%
N-octyl bicycloheptene dicarboximide	0.166%
Petroleum Hydrocarbons	0.239%

INERT INGREDIENTS:	98.945%
	<u>100.000%</u>

*Consists of 0.08% (butylcarbityl) (6-propylpiperonyl) ether and 0.02% related compounds.

Warranty: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.
