

Directions for use

Thuron Blue Sugar Bait is a fly bait formula which can be scattered as a dry bait to give initial knockdown and reduction of the fly population.

DRY BAIT: For reducing populations of houseflies in and around dairy barns, livestock barns, poultry houses, feed lots, kennels, refuse piles, and other areas where houseflies are a problem, scatter at the rate of approximately $\frac{1}{4}$ lb. per 500 sq. ft. of fly feeding area. Apply daily until the fly population is under control and thereafter as often as necessary. May be used around poultry and meat processing plants.

Warning: Harmful if swallowed, inhaled, or absorbed through the skin. Induce vomiting if swallowed. Avoid prolonged breathing of dust. Avoid repeated or prolonged contact with skin. Wash hands after use and before eating or smoking. Avoid contamination of feed and foodstuffs. Keep out of reach of children, poultry and domestic animals. Do not use inside homes or where milk is stored or processed, or during milking time when milk or utensils are exposed. Do not use in commercial food preparation areas or in edible product areas of food processing plants. Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.
