Vapor Flea Collar for Dogs

How to Use

Collar is worn around neck. Collar must be worn tightly. Collar must be worn tightly to cause skin irritation. Three finger width may be inserted between collar and neck. Cut off any excess length. Collar starts killing fleas as soon as it is worn. The fleas on the dog will die. Fleas which temporarily appear on the dog will die during the (13 weeks) collar is worn. Fleas are tough and die slowly. They will usually be dead within 24 hours. Collar will kill ticks for 8 weeks. Dead ticks occasionally fall off dog's coat but are easily shaken off. Inside collar is best to kill - for best results remove ticks when collar is put on. Use in a room to regular bathing and collar until dog is dry. Replace collar for effectiveness.

INGREDIENTS	
Chlorovinyl dimethyl phosphate	8.37%
Compounds	0.63%
INGREDIENTS	91.0%

Do not open until ready to use. Do not allow children to play with collar. Collar is intended for use as an insecticide.
