P/P INSECTICIDE No. 7

P/P INSECTICIDE No. 7

Controls flies, mosquitoes, roaches, ants, small flying moths, carpet beetles, gnats, fleas, bedbugs, silverfish, wasps, spiders, ticks, centipedes, and millipedes. Contents of this can will completely treat 75,000 cubic feet (75 rooms, 10 x 10 x 10) for flies and mosquitoes.

HOW TO USE: 1. Remove cap. 2. Point the nozzle on the side of the valve away from you. 3. Press top of valve to release the desired amount of insecticide. 4. Hold can at least 4 feet away from any object when spraying.

DIRECTIONS: FLIES, MOSQUITOES, SMALL FLYING MOTHS, WASPS, HORNETS AND GNATS — release spray upward and in all directions into air of closed room, about 4 to 6 seconds for every 1,000 cubic feet. After 15 minutes, doors and windows may be opened. To control wasps and hornets in nests, spray nests directly, at night. ROACHES, BEDBUGS, FLEAS, SILVERFISH, ANTS, TICKS, CENTIPEDES AND MILLIPEDES: Spray directly and thoroughly into all wall cracks and baseboards. For fleas and ticks, spray floors, floor coverings and animal's sleeping quarters, and for ants, spray runways or ant trails, around window and door frames, and behind shelving and in storage areas. For bedbugs, also spray all parts of bed framing thoroughly, holding can about 4 feet away. For mattresses, spray seams and tufts. Do not spray general surface of mattress. Air bedding, until completely dry, at least 4 hours before using. Repeat if necessary. CLOTHES MOTHS AND CARPET BEETLES: Hold can at least 4 feet away, and spray articles thoroughly, with special attention to folds and seams. Spray inside of closets or containers where articles are to be stored. Repeat monthly, if articles are not stored in moth tight containers.

OUTDOOR USE ON FLYING INSECTS: Spray into grass and shrubbery (about 1 foot above ground), in immediate area to be occupied. Hold can about 4 feet away from vegetation being sprayed. Similarly, spray around patios, barbecue pits, picnic tables, and other outdoor areas, when the air is quiet. Frequent repeated applications may be necessary, depending on weather conditions.

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate utensils, feed, water or foodstuffs. If swallowed call a physician immediately.

Do not spray directly on skin or on animals. Remove birds and pets and cover fish bowls and aquaria before spraying. Do not remain in treated areas and ventilate after treatment is complete.

When used as a residual spray, do not allow children in treated areas until surfaces are dry. Do not apply to areas which will be contacted frequently by children and pets.

WARNING

CONTENTS UNDER PRESSURE. Do not puncture, use or store near heat or open flame. Exposure to temperatures above 120°F or in sunlight may cause bursting. Never throw empty cans into fires or incinerators.

Active Ingredients:

2, 2-Dichlorovinyl Dimethyl Phosphate	0.465%
Related Compounds	0.035%
*t(5-Benzyl-3-furyl) methyl 2,2-dimethyl-3-	
(2-methylpropenyl) cyclopropane carboxylate .	0.250%
Related Compounds	0.034%
Aromatic Petroleum Hydrocarbons	0.332%
Petroleum Distillates	18.250%

Inert Ingredients: 80.634%

Manufactured by:

PETERSON/PURITAN, Inc.
Danville, IL 61832

CAUTION:

Keep out of Reach of Children.

Read other cautions on back panel.
