STRIKE 30

DIRECTIONS FOR USE.

HOMES - CABINS - MOTELS

To control flies, mosquitoes, gnats, other small flying insects and the reduction of silverfish, place one STRIKE 30 INSPECT STRIP per average size room (10 x 10 x 10 feet or per 100 square feet of floor area). Normally this is effective for one month. Replace strips if effectiveness diminishes. For control of flies in garbage cans attach one STRIKE 30 INSPECT STRIP inside of an average size garbage can (20 gallon capacity). Replace when effectiveness diminishes. Keep lid on garbage can. If more than one strip is required, distribute them equally over areas to be treated. Weather and other conditions such as strong drafts may alter the performance.

Replace strips if effectiveness diminishes.

NOTICE

CAUTION: Do not get in mouth, harmful if swallowed. After prolonged storage, a small amount of liquid may form on strip. Do not get liquid in eyes.

Wash hands thoroughly with soap and water after handling strip. Do not contaminate food, water, food containers or cooking utensils. Keep out of reach of children. Do not place in hospital or clinic rooms, such as patient rooms, wards, infirmary, operating or emergency areas. Do not use in any room where infants, the sick or aged are or will be present for any extended period of confinement. Do not use in kitchens, restaurants, or areas where food is prepared or served.

WARNING: Seller and manufacturer, distributor, distributor and the user of this product assume their liability for all risk of use and benefit from it that arises when such use and handling is contrary to label instructions.

IN THE INGREDIENTS:
