Directions for Use

Swish Fly Repellent is a ready to use formula designed to protect horses and ponies from attacks of horse flies, houseflies, stable flies, deer flies, gnats and mosquitoes.

Use a soft cloth, towel or sponge to apply. Clean the animal's coat of debris, loose dirt and dust before application. Moisten applicator and rub on, first against hair growth, then with hair, to smooth hair coat and give a lustrous sheen.

Keep moistened applicator in a closed container between uses to insure moistness at the start of daily applications.

Be sure to treat animals thoroughly in order that maximum repellency is obtained. Good coverage is important. It is not necessary to use excessive amounts of this material.

CAUTION: Harmful if swallowed. Keep out of reach of children. Avoid contamination of feed and foodstuffs. Do not use, spill or store near heat or open flame. Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.
