**Vaporette 30 day insect strip**  
**STRIKE 30**

BACK PANEL

STRIKE 30

DIRECTIONS FOR USE

Homes - Cabins - Motels

To control flies, mosquitoes, gnats, other small flying insects and the reduction of silverfish, place one Strike 30 Insect Strip per average size room (10 X 10 X 10 feet) or per 100 square feet of floor area. Normally this is effective for one month. Replace strips if effectiveness diminishes. For control of flies in garbage cans attach one Strike 30 Insect Strip inside of an average size garbage can (20 gallon capacity). Replace when effectiveness diminishes. Keep lid on garbage can. If more than one strip is required, distribute them equally over areas to be treated. Weather and other conditions such as strong drafts may alter the performance.

Replace strips if effectiveness diminishes.

NOTICE

CAUTION: Do not get in mouth, harmful if swallowed. After prolonged storage, a small amount of liquid may form on Strip. Do not get liquid in eyes.

Wash hands thoroughly with soap and water after handling strip. Do not contaminate food, water, food containers or cooking utensils. Keep out of reach of children. Do not place in hospital or clinic rooms, such as patient rooms, wards, nurseries, operating or emergency areas. Do not use in any rooms where infants, the sick, or aged are or will be present for any extended period of confinement. Do not use in kitchens, restaurants, or areas where food is prepared or served.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.
