NOTICE OF PESTICIDE

Registration  
 Reregistration

Term of Issuance Unconditional

Name of Pesticide Product

Wellmark International/Dog  
Collar for Flea Control

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Wellmark International  
1100 East Woodfield Road, Suite 500  
Schaumburg, Illinois 60173

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended is acceptable.

A stamped copy is inclosed for your records. Please submit two (2) copies of your final printed labeling fore you release the product for shipment.

as amended, for the pesticide  
registered under EPA Reg. No.~~

2724-254

**READ ENTIRE LABEL BEFORE EACH USE  
USE ONLY ON DOGS/PUPPIES  
[APPLY ONLY 1 COLLAR AT A TIME]**

[ONE SIZE FITS ALL – TRIM TO SIZE (See Directions On Back)]

This collar is designed to fit 99% of all dogs. In rare instances (for example, well developed St. Bernards or Mastiffs), the collar may be too short. If found short for your dog, return to address on top panel for full purchase price refund.]

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Buckle collar around dog's/puppy's neck. [Thread flat end of the collar through buckle hole and tighten as necessary, so that at least two ridges are covered by the buckle. Since the plastic buckle is molded into the collar, the possibility of neck irritation and buckle failure is reduced.] Fit collar snug enough to prevent placement of the dog's/puppy's leg or lower jaw through the collar, yet loose enough to be rotated about the neck. [Generally, if used on large dogs, two or three fingers should fit between the collar and dog's/puppy's neck.]
2. Leave 2-3 extra inches on the collar for adjustment, cut off excess length and dispose of in trash.
3. Check periodically and adjust fit if necessary, especially when puppies are rapidly growing.
4. May be used in addition to regular collar. Replace collar when effectiveness diminishes. [To release the collar, squeeze buckle between thumb and finger and pull sharply.]

**WHAT TO EXPECT:**

**For Fleas:**

1. This [brand name] collar is designed to kill adult fleas.
2. This collar starts killing fleas as soon as it is placed around dog's/puppy's neck.
3. Protection against fleas will be achieved within a few days, providing continuous protection for up to 5 months [4 months].
4. Replace collar every 5 [4 months] months to help control [prevent] flea infestations on your pet [dog/puppy] and in your home.

**For Ticks:**

1. Ticks are tougher to kill than fleas and are killed more slowly.
2. Full protection against adult and immature ticks will be achieved within a few days, providing continuous protection for up to 5 months. [for 4 months]
3. Adult ticks will be killed over the entire pet. Dead ticks will fall off or may be easily removed.
4. Replace collar every 5 months [4 months] for continuous protection from ticks. [If your dog/puppy goes swimming or is out in the rain, it is not necessary to remove the collar. The continuous action collar will rapidly replace any flea and tick killing material removed.]

**STORAGE and DISPOSAL:** **Storage:** Store in original unopened container away from children. **Disposal:** Do not reuse container or used collar. Dispose of in trash.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS-CAUTION:** Do not get dust or collar in mouth, harmful if swallowed. Do not get dust in eyes, will cause temporary pupillary constriction.\* The dust released by this collar is a cholinesterase inhibitor.

**Humans:** Do not open package until ready to use. Do not allow children to handle this collar. Dust will form on this collar during storage. Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling collar.

**Animals:** Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant, or nursing dogs. Do not use on puppies under 12 weeks of age. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced. When collar is first worn, observe neck area every few days for irritation. Remove collar at the first sign of irritation or adverse reaction. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, remove collar and bathe your pet with mild soap and rinse with large amounts of water.

<b>FIRST AID</b>	
Call a poison control center or doctor for treatment advice	
If swallowed	<ul style="list-style-type: none"> <li>• Call poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
