

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
PREVENTION, PESTICIDES,
AND TOXIC SUBSTANCES

October 15, 2009

Nancy Huebl
Wellmark International
1501 E. Woodland Rd., Suite 200W
Schaumburg, IL 60173

Dear Ms. Huebl:

Subject: Label amendment
Dog Collar for Flea Control
EPA Registration No. 2724-254
Submission Date: September 23, 2009

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records. Please submit two copies of your final printed labeling before you release the product for shipment. Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e).

In addition, please note that should you wish to add/retain a reference to the company's website on your label, the website then becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have any questions, please contact Julie Chao by phone at: (703) 308-8735, or by email at: chao.julie@epa.gov.

Sincerely,

John Hebert
Insecticide-Rodenticide Branch
Registration Division (7505P)

EPA Reg. No. 2724-254
EPA Est. No. 2724-TX-1

NET WEIGHT

**ACCEPTED
OCT 15 2009**

**Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for the
pesticide registered under:**

EPA. Reg. No: 2724-254

**READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS/PUPPIES
[APPLY ONLY 1 COLLAR AT A TIME]**

[ONE SIZE FITS ALL – TRIM TO SIZE (See Directions On Back)

This collar is designed to fit 99% of all dogs. In rare instances (for example, well developed St. Bernards or Mastiffs), the collar may be too short. If found short for your dog, return to address on top panel for full purchase price refund.]

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Buckle collar around dog's/puppy's neck. [Thread flat end of the collar through buckle hole and tighten as necessary, so that at least two ridges are covered by the buckle. Since the plastic buckle is molded into the collar, the possibility of neck irritation and buckle failure is reduced.] Fit collar snug enough to prevent placement of the dog's/puppy's leg or lower jaw through the collar, yet loose enough to be rotated about the neck. [Generally, if used on large dogs, two or three fingers should fit between the collar and dog's/puppy's neck.]
2. Leave 2-3 extra inches on the collar for adjustment, cut off excess length and dispose of in trash.
3. Check periodically and adjust fit if necessary, especially when puppies are rapidly growing.
4. May be used in addition to regular collar. Replace collar when effectiveness diminishes. [To release the collar, squeeze buckle between thumb and finger and pull sharply.]

WHAT TO EXPECT:

For Fleas:

1. This [brand name] collar is designed to kill adult fleas.
2. Protection against fleas will be achieved within a few days, providing continuous protection for up to 5 months [4 months].
3. Replace collar every 5 [4 months] months or sooner if needed.

For Ticks:

1. Ticks are tougher to kill than fleas and are killed more slowly.
2. Protection against adult and immature ticks will be achieved within a few days, providing continuous protection for up to 5 months. [for 4 months]
3. Adult ticks will be killed over the entire pet. Dead ticks will fall off or may be easily removed.
4. Replace collar every 5 months [4 months] or sooner if needed.

STORAGE and DISPOSAL: **Storage:** Store in original unopened container away from children. **Disposal:** Do not reuse container or used-collar. Dispose of in trash. If collar is temporarily removed, wrap in paper or plastic; do not allow children to have access to collar.

4/4

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS-CAUTION: Do not get dust or collar in mouth, harmful if swallowed. Do not get dust in eyes, will cause temporary pupillary constriction.* The dust released by this collar is a cholinesterase inhibitor. **NOTICE: This product contains propoxur, a chemical known to the State of California to cause cancer. (in red bold)**

Humans: Do not open package until ready to use. Do not allow children to handle this collar. Dust will form on this collar during storage. Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling collar.

Animals: Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant, or nursing dogs. Do not use on puppies under 12 weeks of age. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced. When collar is first worn, observe neck area every few days for irritation. Remove collar at the first sign of irritation or adverse reaction. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, remove collar and bathe your pet with mild soap and rinse with large amounts of water.

FIRST AID	
Call a poison control center or doctor immediately for treatment advice
