Ms. Nancy Huebl
Wellmark International
1501 E. Woodfield Rd.
Suite 200W
Schaumburg, IL 60173

Subject: Label Amendment – Adding Clarifying Text to Scatterbait Directions for Use and
Adding an Alternate Brand Name
Product Name: Golden Malrin RF-128 Fly Killer
EPA Registration Number: 2724-274
Application Date: October 30, 2015
Decision Number: 510666

Dear Ms. Huebl:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

SEE NEXT PAGE

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Nerija Orentas by phone at 703-347-0509, or via email at Orentas.Nerija@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Walsh", written over a light blue horizontal line.

If on skin or clothing	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.
If in eyes	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-347-8272 for emergency medical treatment information.	
NOTE TO PHYSICIAN/VETERINARIAN: Contains Methomyl, an N-methyl carbamate that inhibits cholinesterase. Atropine is antidotal, if signs of cholinesterase inhibition are present. Early symptoms of poisoning in humans include: excessive sweating, headache, nausea, vomiting, blurred vision, slurred speech, and muscle twitching. Symptoms of poisoning in animals include: salivation, labored breathing, diarrhea, vomiting, tremors, and pinpoint pupils	

[Note: First Aid statement paragraph format may be used if space is limited.]

Personal Protective Equipment: Applicators and all other handlers must wear:

- Long-sleeves shirt and long pants
- Socks and Shoes
- Chemical resistant gloves made of any waterproof material

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:

Users should always wash hands before eating, drinking, chewing gum, using tobacco products, or using the toilet.

Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to birds, fish, aquatic invertebrates, and mammals. Collect, cover, or incorporate any piles of granules spilled on the soil surface. Runoff may be hazardous to aquatic organisms in neighboring areas. Do not apply directly to water, or to areas where surface water is present. This chemical is known to leach through soil into groundwater, especially where soils are permeable or water table is near the surface.

DIRECTIONS FOR USE: - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GOLDEN MALRIN® [Flytek®] Fly Killer is a fly bait formula containing MUSCAMONE® Fly Attractant which encourages both male and female flies to remain in the treated area, thus feeding on the bait.

GOLDEN MALRIN [FLYTEK] FLY KILLER IS NOT TO BE USED INSIDE OR AROUND HOMES, OR ANY OTHER PLACE WHERE CHILDREN OR PETS ARE LIKELY TO BE PRESENT.

Do not apply this product in a way that will contact workers or other persons. Only protected handlers may be in the areas during application. Do not contaminate feed and foodstuffs. [Do not use the can opener used to open this product on food containers. Use a separate can opener.] Do not apply where poultry or other animals, especially dogs and young calves, can pick it up or lick it. Do not use in homes or where milk is processed or stored. Do not feed treated garbage. Use only in areas inaccessible to food producing animals, children, and pets.

Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is present.

SCATTERBAITS:

Apply only to areas where flies are actively feeding. Use GOLDEN MALRIN [Flytek] Fly Killer as a scatterbait only around the outside of certain commercial agricultural production facilities where children or pets will not be present, specifically feedlots, broiler houses, and livestock barns. Bait may be used on walkways in caged layer houses.

GOLDEN MALRIN [Flytek] Fly Killer may also be used as a scatterbait around the outside of the following commercial facilities: canneries, beverage plants, meat and poultry processing plants, food processing plants, and commercial refuse dumpsters which are fenced or otherwise enclosed. Do not use around commercial dumpsters which are not enclosed. Do not use around dumpsters in residential settings.

To avoid contact, distribute bait directly from [shaker] container or other device at the rate of approximately 1/4 lb [4 oz] per 500 sq ft [15 g pouch per 70 sq ft] of fly feeding area. Reapply on a daily basis to maintain control, when the fly population is large enough to consume 4 oz. of GOLDEN MALRIN [Flytek] Fly Killer within a 500 square feet area in 1 day. However, when fly populations decrease, consumption of the bait also decreases so reapply every 2-3 days to maintain adequate fly control. **DO NOT PUT IN PILES.** Keep 1 to 2 inch intervals between particles. **DO NOT ALLOW FOOD PRODUCING ANIMALS OR PETS TO HAVE ACCESS TO TREATED AREAS.**

BAIT STATIONS:

Use GOLDEN MALRIN [Flytek] fly bait in any commercial bait station secured at least 4 feet above the ground and inaccessible to food-producing animals, pets, and children in the following areas: stables, outside of milking parlors, kennels, fast food establishments, restaurants, commissaries, bakeries, supermarkets, refuse dumpsters, and warehouses. Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is present. Add 1 ounce of product to each of 4 bait stations and space the 4 stations as equally as possible within a 500 sq ft treatment area. Add product to replace amount consumed before the station is empty; do not exceed 1 ounce of GOLDEN MALRIN [Flytek] Fly Killer per station at any time. Reapply on a daily basis to maintain control, when the fly population is large enough to consume 4 oz. of GOLDEN MALRIN [Flytek] Fly Killer within a 500 square feet area in 1 day. However, when fly populations decrease, consumption of the bait also decreases so reapply every 2-3 days to maintain adequate fly control. Replace bait station if physically damaged.

STORAGE and DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store the product in a dry, cool place not reachable by children.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Handling:** Nonrefillable container. Do not reuse or refill this container. Empty container by tapping side to apply contents as directed in the Directions for Use. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures allowed by state and local authorities.
