Total.....100.0%

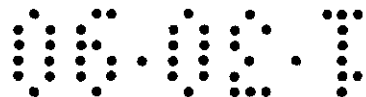

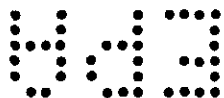

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for additional precautionary statements.

PRECOR is a trademark of Zoecon Corporation.

NET CONTENTS : 32 fl. oz. (947 l)

Not Reviewed. Registrant claims to be in accordance with Reregistration of Pesticide Product Guidance for Phase 2 Response. Page 2.12, Active to Inert Change in Status.

INTRODUCTION: Zoecon RF-174 Flea Growth Regulator acts on an immature life stage of the flea, preventing the adult flea from developing. Flea eggs deposited on and larvae crawling onto treated areas will not develop into adult fleas. Existing adult fleas and flea pupae are not affected.

If a high population of adult fleas (the biting stage) is present, the use of an adulticide may be necessary for immediate relief. For best results, use Zoecon RF-174 Flea Growth Regulator prior to the flea season.

When applied to surfaces where fleas are found, such as carpets, upholstered furniture and pet sleeping areas, Zoecon RF-174 Flea Growth Regulator prevents adult flea emergence for 4 months (120 days).

Flea control on pets is important in prevention of introduction of adult fleas indoors. When using this product, and fleas are problems on pets, the pets should be treated with an effective registered flea control product to prevent the introduction of adult fleas indoors.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Harmful if absorbed through the skin. Avoid contact with skin or eyes. In case of contact, immediately flush skin or eyes with plenty of water. Get medical attention if irritation persists.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product may not be used or referenced as a source of ingredient in the formulation, manufacture or registration of any other products without prior written authorization from Zoecon Corporation.

METHOD AND RATE OF APPLICATION: Prepare a diluted spray solution by adding 1/2 teaspoon (2.5 milliliters) of Zoecon RF-174 Flea Growth Regulator to 3 gallons of water. Partially fill the mixing container with water, add Zoecon RF-174 Flea Growth Regulator, shake, and fill to final volume. Use diluted spray solution within 48 hours of mixing. Shake before each use.

Apply at a rate of 1 gal. of diluted solution per 800-1000 sq.ft. of surface area with any low pressure sprayer typically used for indoor applications. Treat all areas which may harbor fleas, including carpets, furniture, pet sleeping areas and throw rugs. Treat under cushions of upholstered furniture. Avoid contact with treated surfaces until dry.

STORAGE & DISPOSAL :

Store in a cool place. Do not use empty container. Wrap container and put in trash collection.

WARRANTY AND CONDITIONS OF SALE: Zoecon Industries warrants that this product conforms to the chemical description on the label and is useful for the control of fleas as described herein. Neither Zoecon nor the seller makes any other warranty, express or implied.
