

2724-305

ZOECON
RF-210
HYDROPRENE
CONCENTRATE

For Formulating Use Only

ACTIVE INGREDIENT:

Hydroprene [ethyl (2E,4E)-3,7,11-
trimethyl-2,4 dodecadienoate.....

15.0%
85.0%
100.0%

INERT INGREDIENT:*

*methylene chloride

EPA Reg. No. 2724-

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. May cause eye irritation.

STATEMENT OF PRACTICAL TREATMENT: If ingested - Get medical attention. Do not induce vomiting. If inhaled - If ill effects, such as dizziness and/or drowsiness occur from exposure to vapors, remove to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Call a physician. If in eyes - Immediately flush with plenty of water. Get medical attention if irritation persists. If on skin - Immediately wash with soap and water.

NOTE TO PHYSICIAN: Overexposure will cause elevation of blood carboxyhemoglobin and symptoms of narcosis. If accompanied by anoxia, cardiac irritability may be temporarily increased. Maintain adequate oxygenation until recovery. Sympathomimetic amines, such as epinephrine, may precipitate arrhythmias. Use only after careful consideration.

ENVIRONMENTAL HAZARDS: Permits may be required for discharges containing this pesticide into lakes, ponds, streams or public waters. For guidance, contact your regional office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product may be used only for the formulation of an insecticide. Each formulated insecticide product must be registered with the Environmental Protection Agency.

HANDLING AND SPILL PRECAUTIONS: Vapors are heavier than air and will collect in low areas such as pits, degreasers, storage tanks and other confined areas. Do not enter these areas where vapors are suspected unless special breathing apparatus is used and an observer is present for assistance.

Liquid and vapor can decompose to harmful and corrosive vapors when in contact with flame and other ignition sources. In addition, a flammable atmosphere may develop in confined areas. **KEEP AWAY FROM FLAMES AND OTHER IGNITION SOURCES**, such as welding, when used where vapors may become concentrated. **DO NOT CUT OR WELD CONTAINER** due to explosion hazard.

FOR SPILLS, use proper protective equipment. For small spills use sorbent, allow to stand, then sweep into airtight container for disposal. For large spills, evacuate the area, dike, then pump into containers for disposal.

INHALATION PRECAUTIONS

High concentrations of vapors can accumulate in tanks, pits, degreasers, small rooms, and other confined unventilated areas. Progressively higher exposure levels over 1000 ppm can cause dizziness, drunkenness, unconsciousness or even **DEATH**. **EXTREMELY** high vapor concentrations (over 10,000 ppm) are immediately **HAZARDOUS TO LIFE**.

CONTINUING EXPOSURE

EXPOSURES SHOULD NOT EXCEED OSHA 8-HOUR TWA. Repeated and prolonged exposure to vapor concentrations at or above where physical effects begin (dizziness, eye irritation) may be hazardous to health.

EXPOSURE LIMITS

PARTS PER MILLION (PPM)

OSHA:8-Hour TWA 500 PPM

Consult OSHA regulations prior to use.

DIZZINESS BEGINS IN THE RANGE OF 1000 PPM

STORAGE AND DISPOSAL

Avoid storage in conditions of extreme heat.

Reseal container and offer for reconditioning; or triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill; or bury in a safe place away from water supplies.

Consult Federal, State or Local Disposal Authorities for approved alternate procedures.

Zoecon Industries warrants that this product conforms to the chemical description on the label. Zoecon makes no other warranty, express or implied. **NOTE:** Formulators are responsible for providing supporting data for registration of their formulations to the U.S. Environmental Protection Agency.
