

<p>U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDE PROGRAMS REGISTRATION DIVISION (311) 4671 WASHINGTON, D.C. 20460</p> <p>NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREГИSTRATION</p> <p><i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.)</i></p>	EPA REGISTRATION NO. 	DATE OF ISSUANCE OCT 25 1984
TERM OF ISSUANCE 		NAME OF PESTICIDE PRODUCT
NAME AND ADDRESS OF REGISTRANT (Include ZIP code) <div style="border: 1px solid black; padding: 10px; width: fit-content; margin: 0 auto;"> <p>Corporation 1000 ... Washington, D.C.</p> </div>		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act. A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE SIGNATURE OF APPROVING OFFICIAL _____ DATE _____		

First, it was done on a formulation other than that of the subject product. It is sometimes acceptable to cite storage stability studies which test concentrations both above and below a subject concentration. However, this study was done only on single concentration of each active ingredient, below that of the subject product.

Second, the inerts are not specified for the material tested. It may have contained stabilizing ingredients.

[REDACTED]

CBE

In addition, the report does not include data, but only summarize it.

We can draw some general conclusions from the information we have, applicable to the product tested, and possibly to the subject product. However:

(a) Since the variation reported within a given time period is much less than that between time periods, it should follow that the changes with the variability observed is more likely due to some other factor. For instance, if the sample from the various times also are from different batches or containers they might show this amount of fluctuation. It would be helpful to have a full protocol of the storage or sampling phases of the study.

(b) Bearing in mind comment (a), the results appears to be somewhat consistent with satisfactory stability, but they do not demonstrate this stability beyond reasonable doubt. Note that if the decrease in concentration of hydroprene is real, it would be approaching a significant level.

In any case, accelerated storage stability studies are acceptable only as interim data. The required one-year study must be submitted as soon as available.

The label says six different ways that this product is a life-cycle regulator. We recommend and statement, for example the following: "Effectively controls roach populations by preventing reproduction, thereby eliminating future generations."

3. Pursuant to 40 CFR § 162.10 (5)(1-X)(A-B) your label has several false or misleading statements on it. These statements such as the following must be deleted:

- (1) SPECIAL - DIFFERENT - REVOLUTIONARY, SCIENTIFIC BREAKTHROUGH, etc.
- (2) "BIORATIONAL APPROACH TO ROACH CONTROL"
- (3) "ZOECON'S RF-257 IS THE TOTAL ANSWER TO ROACH CONTROL"

The data listed does not include certified limits. You must state specifically what the upper and lower limits are for each active ingredient and each separately added inert ingredient. There are two major alternate formulas, and several minor variations on each of them. You must provide certified limits for each of the several alternate formulas, each containing the information for active and individually added inert ingredients.

You must also provide a viscosity measurement for the concentrate without the propellant.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-7 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

ZOECON RF-253 FOGGER

with GENCOR™ Insect Growth Regulator

NEW - UNIQUE - SPECIAL - DIFFERENT - REVOLUTIONARY
SCIENTIFIC BREAKTHROUGH - NO STICKY MESS

Kills (Controls) Cockroaches, Flies, Ticks, and Fleas

Kills (Controls) Existing Roaches

Eliminates Roach Populations

Continuous Protection for 120 Days (4 months)(17 weeks)

Removes Roaches Natural Ability to Reproduce

Innovational Approach to Roach Control

Works with Nature to Interrupt The Life Cycle Of The Roach

Effectively Controls Roach Populations
By Preventing Reproduction

Effectively Breaks The Roach Life Cycle

Inhibits Roaches Natural Ability to Reproduce,
Thereby, Eliminating Future Generations

No Lingering Odor

No Stains

No Cleanup Necessary

Easy to Apply

Entire Contents Released From One Spot

Fog Penetrates Throughout Enclosed Area

Kills Insects While You're Away

ACTIVE INGREDIENTS

Permethrin (3-Phenoxypheyl methyl)-	
cis-trans-3-(2,2-Dimethylpropyl)-2-	
Dimethylcyclopropanecarboxylate;	0.25%
Hydrozone (Ethy) (E,E)-3,7,11-trimethyl-	
2,4-Dodecadienoate;	0.60%
INERT INGREDIENTS	99.25%
TOTAL	100.00%

KEEP OUT OF REACH OF CHILDREN

WARNING

See Back Panel For Additional Precautionary Statements

NET CONTENTS: 6 oz. (170 g)

GENCOR is a trademark of Zocon Corporation

Zocon RF-253 Fogger is the answer to Roach GENCOR™ Insect Growth Regulator, an ingredient with the ability to reproduce, thereby eliminating future generations (adulticide) that kills existing roaches. This powerful fogger kills roaches in cracks and crevices to kill them where they hide.

One to two weeks after application you will begin to see the effects of GENCOR. These roaches cannot reproduce and are prevented from developing into reproductive adults, thus breaking the roach life cycle.

Use Zocon RF-253 Fogger to kill adult roaches and to prevent them from reproducing future generations. Zocon RF-253 Fogger should provide continuous protection.

Zocon RF-253 Fogger leaves no bad smell, no sticky mess, and does not stain furnishings.

PRECAUTIONARY STATEMENTS

HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS - WARNING. May irritate eyes. Avoid contact with skin and clothing. May be absorbed through the skin. Avoid breathing mist. Do not use in areas where food is prepared or stored.

Avoid contamination of food and foodstuffs. Do not use in processing plants, restaurants, or other areas where food is processed or stored. Do not use in serving areas while eating.

STATEMENT OF PRACTICAL TREATMENT: If in eyes - Flush with water. If irritation persists, seek medical attention. If inhaled - Remove to fresh air. If on skin - Remove clothing. Wash affected areas with soap and water. If swallowed - Get medical attention.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure or open flame. Do not puncture or incinerate container. 130°F may cause bursting. DO NOT use in small, enclosed cabinets, closets or under tables.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For best results, treat entire dwelling with particular attention to bedrooms, bathrooms. Use one fogger for each 375 sq. ft. (3000 ft³).

1. Close outside doors and windows and turn off fans and air conditioning.
2. Extinguish open flames, except pilot light.
3. Open interior doors and closets of areas to be treated. Remove drawers and remove contents.
4. Remove pets. Cover or remove fish tanks and bowls.
5. Cover or remove exposed food, dishes, utensils, food items such as eye glasses, stereo covers, and other surfaces should be covered during treatment or thoroughly washed after treatment.
6. Leave rugs, drapes, slipcovers, and upholstered furniture. If directed, this product will not harm them.
7. Place fogger on floor, table or chair with newspaper under the can.
8. Keeping at arm's length, point top of can away from you and lock in position and start fogging action. Set timer for 2 hours.
9. After 2 hours, open all doors and windows, turn on fans and let treated area air for 30 minutes.

STORAGE & DISPOSAL:

Store in cool, dry place. Do not use in areas where food is prepared or stored. container and put in trash.

Store in cool, dry place.
