GENCOR is a trademark of Sandoz Ltd.

This product contains GENCOR<sup>®</sup> Insect Growth Regulator, an ingredient which inhibits roaches' natural ability to reproduce, thereby eliminating future generations, and an ingredient (adulticide) that kills existing roaches. This powerful formula reaches roaches through cracks and crevices to kill them where they hide.

One to two weeks after application you will begin to see roaches with crinkled wings - showing the effects of GENCOR. These roaches cannot reproduce. Immature roaches are prevented from developing into reproductive adults, thereby effectively breaking the roach life cycle.

Use Zoecon RF-254 Aerosol to kill adult roaches and to inhibit roaches natural ability to reproduce future generations. Zoecon RF-254 Aerosol should be applied every 4 months to maintain continuous protection.

Zoecon RF-254 Aerosol leaves no bad smell, no sticky mess, and used as directed, does not stain furnishings.
