US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	EPA REGISTRATION 2724-334	DATE OF ISSUANCE 9/25/85
	TERM OF ISSUANCE Until Reregistration	
	NAME OF PESTICIDE PRODUCT Zoecon RF-277 RTU Carpet Pump Spray	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Zoecon Industries
 A Division of Zoecon Corporation
 12200 Denton Drive
 Dallas, TX 75234

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 2724-GGU" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.
4. Within 60 days of the registration date, please submit the upper and lower certified limits for your active ingredient and inerts. Referencing a similar product is not acceptable.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

ACCEPTED with COMMENTS in EPA Letter Dated: SEP 27 1985

DIRECTIONS FOR USE - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Shake well before using.

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 2724-334

Fleas: For maximum effectiveness treat entire carpeted area with a fine spray. Treat carpets, rugs, drapes and all surfaces. Fleas on bedding of pets should be removed and replaced with clean bedding. Retreat as necessary.

Zoecon RF-277 RTU Carpet Pump Spray in homes, [garages, basements, etc.]. One bottle will treat a surface area equivalent to 1000 sq. ft. of carpeting. Avoid wetting furniture and carpeting. A fine spray is necessary to kill fleas.

No need to remove plants from the home while applying. Remove birds, nursing puppies and cats, and cover aquariums.

To kill ticks, roaches, ants, spiders, crickets, silverfish, earwigs, and pillbugs, apply directly to pests.

STORAGE & DISPOSAL: Store in original container. Protect from freezing or high temperatures. Do not reuse this product only. Wrap and put in trash.

* [Refund if not satisfied.]

Seller makes no warranty, express or implied, concerning the product. Buyer assumes all risk of use. Such use and handling are contrary to label instructions.

EPA Reg. No. 2724-
Zoecon Industries

Although the sprayer has been primed and tested at the factory, it may need to be primed again before use. First, be sure that the bottom of the hose is below the liquid level in the bottle and check the adjustable nozzle on sprayer to make certain it has not been turned completely off.

Should the sprayer fail to work after 8-10 pumps, submerge the entire sprayer and hose in clean water and pump several times while under water to reprime the pump. (See section on non-functional sprayers if priming is ineffectual).

ADJUSTING NOZZLE

The adjustable nozzle has been designed to offer a variety of spray patterns, depending on your specific use. For broadest coverage, adjust to a fine spray mist or rotate the nozzle to a coarser sprayer.

STORAGE

Store container out of reach of children. Remove sprayer and replace shipping cap between uses to prevent leakage, spillage or evaporation. To prevent drainage during short-term storage place sprayer under handle on container so that sprayer is not below level of content of container. To ensure long sprayer life. . . remove from bottle after each use and clean by pumping clear water through sprayer for 10 seconds [Use sprayer for this product only].

FOR NON-FUNCTIONAL SPRAYERS

Remove nozzle cover. Check holes for obstruction in nozzle and plastic components. With nozzle cover removed, submerge sprayer and hose in warm water. Operate trigger 10-15 times until spray begins. Replace nozzle cover, pump to remove clear water from hose and begin spray treatment.

PLEASE READ ENTIRE PRODUCT LABEL CAREFULLY
AND USE STRICTLY IN ACCORDANCE WITH
CAUTIONS AND DIRECTIONS
