INTRODUCTION: Zoecon RF-291 Emulsifiable Concentrate acts on an immature life stage of the flea, preventing the adult flea from developing. Flea eggs deposited on and larvae crawling onto treated areas will not develop into adult fleas. Existing adult fleas and flea pupae are not affected.

If a high population of adult fleas (the biting stage) is present, the use of an adulticide may be necessary for immediate relief. For best results, use Zoecon RF-291 Emulsifiable Concentrate prior to the flea season.

When applied to surfaces where fleas are found, such as carpets, upholstered furniture and pet sleeping areas, Zoecon RF-291 Emulsifiable Concentrate prevents adult flea emergence for 7 months (210 days).

Flea control on pets is important in prevention of introduction of adult fleas indoors. When using this product, and fleas are problems on pets, the pets should be treated with an effective registered flea control product to prevent the introduction of adult fleas indoors.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush skin or eyes with plenty of water. Get medical attention if irritation persists.

STATEMENT OF PRACTICAL TREATMENT: If in eyes, flush with plenty of water. If irritation persists, call a physician. If swallowed, call a physician. Do not induce vomiting. If on skin, wash thoroughly with soap and water. If skin irritation occurs, call a physician. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product may not be used or referenced as a source of ingredient in the formulation, manufacture or registration of any other products without prior written authorization from Zoecon Corporation.

METHOD AND RATE OF APPLICATION: Prepare a diluted spray solution by adding 1 oz. of Zoecon RF-291 Emulsifiable Concentrate to 1 gallon of water. Partially fill the mixing container with water, add Zoecon RF-291 Emulsifiable Concentrate, shake, and fill to final volume. Shake before each use.

Apply at a rate of 1 gal. of diluted solution per 1500 sq.ft. of surface area with any low pressure sprayer typically used for indoor applications. Treat all areas which may harbor fleas, including carpets, furniture, pet sleeping areas and throw rugs. Treat under cushions of upholstered furniture. Avoid contact with treated surfaces until dry.

STORAGE & DISPOSAL: Store in a cool place. Do not use empty container. Wrap container and put in trash collection.

WARRANTY AND CONDITIONS OF SALE: Zoecon Corporation warrants that the chemical composition of this product conforms to the chemical description on the label and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Zoecon makes no other warranty, express or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given on the label.
