ZOECON RF-291 EMULSIFIABLE CONCENTRATE

With [Contains] PRECOR® [vIGRen®] Insect Growth Regulator
 Lasts 210 days
 Makes 1 gallon of spray
 Treats 1500 square feet
 Breaks the flea life cycle
 To Prevent the Emergence of Adult Fleas Indoors

ACTIVE INGREDIENT:

(S)-Methoprene (CAS #65733-16-6)..... 1.2%

OTHER INGREDIENTS*: 98.8%

Total 100.0%

* Contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for additional precautionary statements

EPA Reg. No. 2724-352
EPA Est. No.:

Net Contents:

INTRODUCTION: Zoecon RF-291 Emulsifiable Concentrate [contains the insect growth regulator, S-Methoprene, which] acts on the immature life stages of the flea, preventing the adult flea from developing. Flea eggs deposited on, and larvae crawling onto treated areas will not develop into adult fleas. Existing adult fleas and flea pupae are not affected.

If a high population of adult fleas (the biting stage) is present, tank-mix with an adulticide of choice that is EPA registered and properly labeled for flea control. Use Zoecon RF-291 Emulsifiable Concentrate prior to the flea season as a preventative treatment. To prevent infestations before they start, apply Zoecon RF-291 Emulsifiable Concentrate prior to flea season.

When applied to surfaces where fleas are found, such as carpets, upholstered furniture, and pet sleeping areas, Zoecon RF-291 Emulsifiable Concentrate prevents adult flea emergence for up to 7 months [210 days].

Controlling fleas on pets is important to prevent introduction of adult fleas indoors. If fleas are a problem on pets, treat the pets with an effective EPA registered flea control product.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

| | |
|--|---|
| FIRST AID | |
| Call a poison control center or doctor immediately for treatment advice. | |
| If in eyes | <ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. |
| If on skin or clothing | <ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. |
| Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-[phone number] for emergency medical treatment information. | |
| NOTE TO PHYSICIAN: This product contains petroleum distillates. If swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. | |

[Note: First aid statement paragraph format may be used if space is limited.]

PHYSICAL OR CHEMICAL HAZARDS: Combustible. Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product may not be used or referenced as a source of ingredient in the formulation, manufacture, or registration of any other products without prior written authorization from Wellmark International.

METHOD AND RATE OF APPLICATION: Prepare a diluted spray solution with a final S-Methoprene concentration of approximately 0.007%, by adding 1 oz of Zoecon RF-291 Emulsifiable Concentrate to 1 gallon of water. Partially fill the mixing container with ½ gallon of water, add Zoecon RF-291 Emulsifiable Concentrate, shake well, and then add the remaining ½ gallon of water. Shake well before each use. When tank-mixing, follow the directions above except add the product to tank mix first, agitate, and then add Zoecon RF-291 Emulsifiable Concentrate, agitate and complete filling of spray tank, and agitate once more.

Apply at a rate of 1 gallon of the diluted spray solution per 1500 sq ft of surface area with any low pressure sprayer with a fan tip that is typically used for indoor applications. Treat all areas harboring fleas, including carpets, furniture, pet sleeping and bedding areas, and throw rugs. Treat under cushions of upholstered furniture. Avoid contact with treated surfaces until dry. When applying to upholstery where staining could be a concern, apply dilution to a small inconspicuous location to determine if possible staining could occur. Generally, RF291 Emulsifiable Concentrate will not stain areas that would not be stained by water alone.

STORAGE and DISPOSAL: Do not contaminate water, food, or feed by storage and disposal. **Storage:** Store in a cool place away from heat or open flame. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY AND CONDITIONS OF SALE: Seller makes no warranty, expressed or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
