

Reg # 2724-445

PM-14

181

ACCEPTED
SEP 30 1992

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 2724-445

R.B. #2

KILLS RATS AND MICE

Kills Norway Rats, Roof Rats, and House Mice
Long term control may be attained through continuous baiting

ACTIVE INGREDIENT:

Warfarin: [3-(alpha-Acetylbenzyl)-4-hydroxycoumarin].....

0.025%
99.975%

INERT INGREDIENTS:.....

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Back Panel for Additional Precautionary Statements

NET WT.:

outer carton
~~Place Packs~~ — ounces each

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: May cause eye irritation. Wash thoroughly with soap and water after handling. Keep away from humans, domestic animals and pets. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding.

NOTE TO PHYSICIAN: If ingested, administer Vitamin K, intramuscularly or orally, as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARD: Keep out of lakes, streams or ponds.

This product is accepted as outlined by the U.S.D.A. for use in official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection program.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets, or other nontarget animals to rodenticides. To help to prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container, and unused, spoiled, and unconsumed bait as specified on this label.

USE RESTRICTIONS: For control of Norway rats, Roof rats, and House mice in and around homes, industrial and agricultural building, and similar man-made structures. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not broadcast bait.

Selection of Treatment Areas: Determine areas where rats and/or mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been observed. Protect bait from rain or snow. Remove as much alternative food as possible.

Application Directions: Rats: Apply one to five place packs per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days.

Mice: Open pack and apply 1/4 to 1/2 ounce (1-2 level tablespoons) of bait at 8-12 foot intervals. Larger placements (up to 2 ounces) may be needed at points of high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days.

Rats and Mice: Replace contaminated or spoiled bait immediately. Collect and dispose of all dead animals and unconsumed bait properly. To prevent reinfestation, eliminate food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish bait as needed.

STORAGE & DISPOSAL: **Storage:** Store only in original container, in a dry place inaccessible to children and pets. **Disposal:** Do not reuse empty container. Securely wrap in newspaper and discard in trash.
