UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, D.C. 20460

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

July 15, 2010

Laura Doolin Wellmark International 1501 East Woodfield Road, Suite 200 West Schaumburg, Illinois 60173

Dear Ms. Doolin:

Subject: Notification per Pesticide Registration Notice 2007-4

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4, dated June 30, 2010, for Wellmark International/Zoecon 9001 EW, EPA Registration Number 2724-450.

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4, and finds that the label changes requested do fall within the scope of PRN 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

If you have any questions, please contact Maggie Chaing directly at 703-305-5383 or email chaing.maggie@epa.gov.

Sincerely,

John Hebert

Lasecticide-Rodenticide Branch Registration Division (7505P) Office of Pesticide Programs

SUBJECT:

NOTIFICATION PER PRN 2007-4/CONTAINER DISPOSAL FOR

ZOECON 9001 EW/EPA REG. NO. 2724-450

Dear Ms. Eagle:

Enclosed is a completed EPA Form 8570-1 and 1 copy of revised highlighted labeling to serve as notification per PRN 2007-4. The added text represents exact wording from the regulations/PR Notice, no other changes were made to the label. This action is not a PRIA action and does not require any fee.

If you have any questions or if I can provide any further assistance, please, call me directly at 847/330-5384. Thank you for your assistance in this matter.

Yours sincerely, WELLMARK INTERNATIONAL

{Not labeled for individual sale (3.2 fl oz unit dose)} {See outer container for additional Precautionary Statements, First Aid Treatments, and Directions For Use (3.2 fl oz)}

EPA Reg. No. 2724-450 Lot Number: EPA Est. No.

Net Contents:

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - WARNING: May be fatal if swallowed. Harmful if inhaled or absorbed through skin. Avoid breathing vapor or spray mist. Avoid contact with skin, eyes, or clothing.

Personal Protective Equipment (PPE):

Mixers, loaders, applicators, and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical-resistant gloves, such as barrier laminate, butyl rubber (≥14 mils), nitrile rubber (≥14
- mils), neoprene rubber (≥14 mils), polyvinyl chloride (PVC)(≥14 mils), or viton (≥14 mils)

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:

Users should:

information.

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID	
Call a poison of	control center or doctor immediately for treatment advice.
If swallowed	 Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If on skin or clothing	 Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
If inhaled	 Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
If in eyes	 Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
	uct container or label with you when calling a poison control center or doctor, or going You may also contact 1-800-[phone number] for emergency medical treatment

NOTE TO PHYSICIAN: Contains propetamphos, an organophosphate, that inhibits cholinesterase. Atropine with 2-PAM is the emergency antidote if symptoms of cholinesterase inhibition are present.

[Note: First Aid statement paragraph format may be used if space is limited.]

PHYSICAL OR CHEMICAL HAZARDS: Do not use, pour, or store near heat or open flame.

DIRECTIONS FOR USE - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

General Precautions and Restrictions: FOR INDOOR USE ONLY. Zoecon® 9001 EW provides effective kill of German Cockroaches and effective control of other listed pests for indoor, non-residential crack and crevice treatments only for the following use areas:

- food service establishments (e.g., restaurants, taverns, delicatessens, mess halls, mobile canteens, around vending machines, grocery stores and markets where there is no contact with food, and when food is removed or covered prior to treatment), including schools, hospitals and nursing homes in food service areas only;
- indoor non-food areas (e.g., office buildings; commercial; and industrial buildings and warehouses; correctional facilities, manufacturing establishments, rail cars, marine vessels, and institutions, except those where children and the elderly occupy, such as and including schools, day-cares, hospitals, and nursing homes); and
- non-food areas of eating establishments where there is no contact with food, and where no food processing, packing, and no food and/or feed warehousing occurs.

This product cannot be used in homes, apartment buildings, or any other residential structure. Also, this product cannot be used in structures where children and the elderly occupy, such as and including schools, day-cares, hospitals, and nursing homes, but may be used in the food service establishment areas within these structures, provided food is removed or covered prior to treatment. Not for use in USDA federally inspected meat processing plants.

Zoecon 9001 EW mixes easily with water and may be applied with most sprayers. Diluted spray mixture may be stored overnight and used the following day, but mixture should be agitated well prior to application to prevent the uneven distribution of product. Do not apply as a space spray. This product shall only be used for crack and crevice treatment. Crack and crevice treatment is application of small amounts of pesticides into crack and crevices in which pests hide or through which they may enter a building. Openings of this type commonly occur at expansion joints, between different elements of construction, and between equipment and floors. Apply as a 0.5% ai solution to crack and crevice sites only, where pests occur including areas behind loose baseboards and tile, pipe chase penetrations, cracks in caulking surrounding doors and windows, under refrigerators, behind cabinets, sinks and stoves, and cracks leading to wall voids. Areas that may have cracks or crevices that harbor pests include: storage areas, closets, under cabinets, and restrooms. Cover all foodstuffs in area to be treated or remove food prior to application.

Zoecon 9001 EW in recommended dilutions is non-staining and does not cause damage to fabrics, plastics, paints, or other surfaces which cannot be damaged by water alone. Do not apply where electrical short circuits might result. Do not enter or allow others to enter until sprays have dried. Do not apply product in a way that will contact workers, other persons or animals, either directly or through drift. Only protected handlers may be in the area during application.

This product may not be reapplied more than once every 7 days and treatment may not exceed 2 applications in a 30 day period.

Specific Instructions:

For crack and crevice treatments: Mix 3.2 oz of **Zoecon 9001 EW** in 1 gallon of water (equivalent to 0.5% active ingredient solution).

NOTE: Following treatment, thorough ventilation of treated areas, by occupant before re-entry, may reduce potential odors. In buildings with restricted air flow, such as office buildings, ventilation is enhanced by adjusting ventilation systems to include outside air for 24 hours.

Crack and Crevice Applications:

Pests:

German cockroaches spiders (except brown recluse or black widow)

carpet beetles

crickets boxelder bugs

firebrats earwigs

pillbugs ground beetles sowbugs drain flies

silverfish fruit flies ants (except fire, harvester, carpenter, and pharaoh)

Stored Product Pests [sawtoothed grain beetle, red flour beetle, confused flour beetle, cigarette beetle]

Food Service Establishments: Application is limited to crack and crevice treatments in food service establishments such as restaurants, cafeterias, taverns, delicatessens, mess halls, institutional dining areas, mobile canteens, around vending machines, groceries and markets where there is no contact with food and food service areas only in schools, hospitals, day-cares, and nursing homes; as well as non-food areas of eating establishments where there is no contact with food, and where no food processing, packing, and no food and/or feed warehousing occurs. Cover all foodstuffs in areas to be treated or remove food prior to application.

Crack & Crevice: Prepare a Zoecon 9001 EW spray-mix diluted with water as directed above and apply in small amounts directly into cracks and crevices using equipment capable of delivering a pinstream in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where German cockroaches, ants, silverfish, firebrats, spiders, and crickets hide.

STORAGE and DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Storage: Store in a cool, dry, and ventilated area away from humans, pets, foodstuffs, and feed. Do not store near heat or open flame. Keep from freezing. Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Plastic-Container

DisposalHandling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. -Then offer for recycling-or reconditioning if available, or puncture and dipose of in a sanitary landfill, or incinerate, or if allowed by state and local authorities, by burning. If burned, stay out of smoke

To the extent consistent with applicable law, Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instructions.
