Schaumburg, IL 60173

JUN 29 2009

SUBJECT: Applications for Pesticide Notification – Label Change per PR Notice 2007-4
Zoecon RF-299 RTU Carpet Pump Spray EPA Reg. No. 2724-401
Zoecon 9307 Pet Spray EPA Reg. No. 2724-462
Applications Dated May 7, 2009 and May 22, 2009

Dear Ms. Huebl:

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 for the above products. Per your request, the applications dated May 7, 2009 will be superseded by the applications dated May 22, 2009. The Registration Division (RD) has conducted a review of these requests for their applicability under PRN 2007-4, and finds that the label changes requested fall within the scope of this PRN. The labels have been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

Rachel C. Holloman

SUBJECT: NOTIFICATION OF LABEL CHANGE PER PRN 2007-4
CONTAINER DISPOSAL
TO REPLACE MAY 8, 2009 NOTIFICATION
FOR ZOECON 9307 PET SPRAY/EPA REG. NO. 2724-462

Dear Mr. Rodia:

Enclosed is a completed EPA Form 8570-1 and 1 copy of a highlighted label (new text is red) per PRN 2007-4. The text represents exact text from the PR Notice/Label Review Manual, no other label changes were made. This notification will replace the previously sent May 8, 2009, notification for the container disposal change as that text was not correct per the Label Review Manual chapter.

If you have any questions or if I can provide any further assistance, please, call me directly at 847/330-5376. Thank you for your assistance in this matter.

Yours sincerely,
WELLMARK INTERNATIONAL

USE ONLY ON [DOGS][PUPPIES][CATS][KITTENS][HORSES][PONIES]**

HOW ZOECON 9307 WORKS [FOR BOT FLY CONTROL]:

[Zoecon 9307 combines the adult flea killing power of pyrethrins with the long-lasting egg-killing power of PRECOR® [vIGRen®] Insect Growth Regulator. This highly effective combination of ingredients provides quick relief from biting fleas and continuous killing of flea eggs laid on the animal, breaking the flea life cycle. The elimination of both adult fleas and flea eggs is important because adult fleas live on your pet, causing discomfort and skin irritation, while the vast number of eggs that they lay fall off and develop in your house. If fleas are already developing in your house, then {premise product} and {yard product} should also be used. Effective flea control requires treatment of your pets, house, and yard.]

[Zoecon 9307 contains PRECOR® [vIGRen®] Insect Growth Regulator which effectively kills botfly eggs that have been glued to the hairs on the forelegs, shoulders, and faces of horses by adult botflies (*Gastrophilus* spp.). If left untreated, botfly larvae emerge from these eggs and are taken into the mouth of the horse. After botfly larvae are swallowed they attach to the stomach and small intestinal linings in tremendous numbers where they can remain for months before passing out in the feces. Adult botflies emerge from pupae in the soil to begin the cycle all over again. Botflies have been implicated as a cause of some stomach and intestinal conditions in horses.]

DIRECTIONS FOR USE - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

FOR DOGS/CATS:

For Fleas, Lice, and Flea Eggs: A light, even coverage of the hair coat will provide effective flea control. Do not allow spray from application or damp animal to come into contact with painted or finished surfaces, including wood floors/furniture, leather/vinyl materials, or other surfaces of concern. For best penetration [results], ruffle the coat while spraying against the natural lay of the hair. Cover animal's eyes with hand and [with a firm, fast stroke,] spray head, ears, and chest. With cloth, rub into face around mouth, nose, and eyes. Then spray the neck, middle, and hindquarters, finishing with legs last. Avoid spraying rectum and genitals. For larger dogs, spray until damp not saturated. Do not allow animals, cats in particular, to become chilled. Apply at the rate of [1 to 2 squeezes of the trigger sprayer][1 to 2 seconds of spray][0.1 ounce] per pound of body weight. Repeat every month for continuous home flea infestation prevention. For continuous protection against adult fleas, or if your pet becomes reinfested with adult fleas from outside sources, reapply [Brand name] once weekly.

For Ticks: Apply as directed for fleas, but make sure spray thoroughly wets ticks. For continuous protection against ticks, reapply {Brand name} once weekly.

For Mosquitoes: Apply as directed for fleas. For continuous protection against mosquitoes, reapply {Brand name} once weekly.

FOR PUPPIES/KITTENS:

For Fleas, Lice, and Flea Eggs A light, even coverage of the hair coat will provide effective flea control. Do not allow spray from application or damp animal to come into contact with painted or finished surfaces, including wood floors/furniture, leather/vinyl materials, or other surfaces of concern. Leaving the eyes, nose, and mouth exposed, treat puppies/kittens weighing less than 3 lbs. by wrapping the animal in a towel which has been lightly sprayed with [Brand name]. Keep the animal wrapped for 5 to 10 minutes. Or lightly spray a brush or cotton ball and work thoroughly into the hair coat. Adult fleas may then be removed from the coat by picking or combing. Puppies/kittens over 3 lbs. may be treated the same as dogs/cats with [1 to 2 squeezes of the trigger sprayer][1 to 2 seconds of spray][0.1 ounce] per pound of body weight. Reapply every 28 days [1 month], for continuous home flea infestation prevention. For continuous protection against adult fleas, or if your pet becomes reinfested with adult fleas from outside sources, reapply [Brand name] once weekly. Do not allow animal to become chilled. Do not use on puppies/kittens under 12 weeks of age.

[FOR HORSES AND PONIES:]

[For Mosquitoes, [Bot][Face] Flies, Gnats and Botfly Eggs: Remove excess dirt and dust by brushing the coat. Apply the spray once weekly directly to the horse's/pony's coat, paying particular attention to the legs, shoulders, flanks, neck and topline. Spray to the point of dampness, but not to the point of runoff. To treat the face, dampen a cloth with the spray and rub on the face and head, being careful to avoid the eyes. For a high degree of mosquito, fly, gnat, and botfly egg control, spray animals every 3 to 5 days. Do not use on horses destined for slaughter.]

STORAGE and DISPOSAL: **Storage:** Do not store near heat or open flame. Store away from children and animals. **Disposal:** Nonrefillable container. Do not reuse or refill this container. **If empty:** ~~Do not reuse this container.~~ Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. May cause skin sensitization in rare cases with repeated use. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing or medicated animals. Sensitivities may occur after using ANY pesticide product for pets [animal]. If signs of sensitivity occur bathe your pet [animal] with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID	
Call a poison control center or doctor immediately for treatment advice.	
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-[phone number] for emergency medical treatment information.	

[Note: First Aid statement paragraph format may be used if space is limited.]

PHYSICAL HAZARDS: Combustible. Do not use or store near heat or open flame.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.

[Satisfaction Guarantee]

[If not completely satisfied with this product, return it to place of purchase with your receipt for a full refund.] 100% satisfaction guaranteed. In case of emergency or for product use information, call [phone number] or visit our Web site: [URL].

For [more] information [about Brand name products] or in case of emergency, call 1-XXX-XXX-XXXX [weekdays from][time].
