ACCEPTED  
 with COMMENTS  
 in EPA Letter Dated:

MAY 05 1997

Under the Federal Insecticide,  
 Fungicide, and Rodenticide Act as  
 amended, for the pesticide  
 registered under EPA Reg. No.

ACCEPTED  
 MAY 1997  
 Under the Federal Insecticide, Fungicide, and  
 Rodenticide Act, as amended, for the  
 pesticide registered under  
 EPA Reg. No. 2724-464

Sandoz 9309 Fogger kills fleas, hatching eggs, and ticks [houseflies, gnats, cockroaches, ants, spiders, mosquitoes, flying moths, cloth moths, carpet beetles, sawtoothed grain beetles, rice weevils, pill bugs, silverfish, crickets, confused flour beetles, wasps, hornets, and palmetto bugs]. PRECOR® (VIGREN®) Insect Growth Regulator, the unique ingredient in (Brand Name), provides 7 months [210 days][30 weeks] protection by preventing eggs from ever developing into biting fleas. This (Brand Name) product enables you to fill an entire room with insect killing fog while you are away. For best results, use (Brand Name) fogger together with other [Brand Name] household products for complete control of fleas and ticks.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**FOR USE IN THE HOME  
SHAKE WELL BEFORE USING**

1. Vacuum thoroughly before fogging. Expose areas to be treated to ensure unobstructed flow of fogger mist (i.e., open inside doors, cabinets, trunks, etc.). Remove or cover exposed food, dishes, utensils, food preparation equipment, and surfaces. Remove pets and birds and remove or cover (and turn off) fish tanks and bowls. **EXTINGUISH ALL FLAMES AND PILOT LIGHTS.** Shut off all fans and air conditioners. Close outside doors and windows. Do not use fogger in a cabinet or under a counter or table. Use one 6 oz [4 oz/2 oz] can for each 500-750 sq ft [250-500 sq ft/100-250 sq ft] of unobstructed space.
2. Remove all motor vehicles before fogging garage.
3. Place fogger on covered stand or table in center of room to be fogged.
4. Before activating, tilt can away from face (container sprays straight up). Press down firmly on edge of actuator tab until it locks into place. [This engages the delayed release mechanism which allows you time to quickly leave the room before fogging begins.]
5. After activating fogger, leave room or house at once. Keep treated area closed for at least two hours, then open all doors and windows and allow treated area to air for 30 minutes.
6. For best results, spot treat with [Brand Name] under beds, furniture, or obstructed areas where fogger mist may not penetrate.

**STORAGE & DISPOSAL:** Storage: Store in a cool, dry area away from heat or open flame. Disposal: Replace cap, wrap container in several layers of newspaper and discard in trash. Do not incinerate or puncture.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION:

Harmful if inhaled, absorbed through the skin or ingested. Avoid breathing spray mist. May cause eye irritation. Avoid contact with eyes, skin, and clothing. Wash thoroughly with soap and water after using. Avoid contamination of food, foodstuffs, and food preparation areas. Do not remain in treated areas during or after use. Reenter 2 hours following treatment or when spray is dry. Ventilate enclosed area before returning.

Remove pets and birds and cover and turn off fish aquariums before spraying. Contact veterinarian if pets are exposed during application.

### STATEMENT OF PRACTICAL TREATMENT

If inhaled - Remove individual to fresh air. If not breathing give artificial respiration. Get medical attention. If on skin - Remove contaminated clothing and wash affected areas with soap and water. If in eyes - Flush eyes with plenty of water. Obtain medical attention if irritation persists.

### PHYSICAL OR CHEMICAL HAZARDS:

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate. Exposure to temperatures above 130° F may cause bursting.
