**HOW SANDOZ 9503 AEROSOL WORKS:**

**To PREVENT flea infestations:**

Sandoz 9503 Aerosol was specifically designed to PREVENT flea infestations from developing in the home, before fleas are even found on the pet. PRECOR® (VIGREN®) Insect Growth Regulator, the unique ingredient in (Brand Name), provides residual protection for [a full flea season] 7 months [210 days] [30 weeks] by preventing eggs that are brought into the home by pets from ever developing into biting adults. For best results, use before the flea season arrives. Use twice yearly.

PRECOR [VIGREN] IGR effectively stops future flea infestations from developing by killing eggs and larvae, but does not kill adult fleas. In flea infested homes, use [Brand Name] products which do kill adult fleas and follow recommendations for repeat applications. Use [Brand Name] on-animal products to control fleas and their eggs on pets.

This (Brand Name) aerosol has a technologically advanced applicator that makes spraying under tables, beds, and other pet resting areas more convenient than conventional aerosols.

One 16 oz [12 oz] can effectively treats 2000 [1500] square feet.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**SHAKE WELL BEFORE USING**

**FOR USE IN THE HOME**

- For best results, the entire house should be treated paying particular attention to the areas where pets frequent.
- A single 16 oz [12 oz] can treats 2000 [1500] square feet. Avoid thoroughly wetting area that needs treating.
- Hold container upside down 2-3 feet from surface, point actuator towards the surface, and push button.

**For Surface/Carpet Spray:**

- Vacuum thoroughly before spraying. Apply uniformly with a sweeping motion to rugs, carpets, drapes, and all surfaces of upholstered furniture. Treat surfaces uniformly from one end to the other.
- Only complete coverage of carpets, upholstery, and other fabrics will ensure prevention of flea infestations.
- Test in an inconspicuous place prior to use on light colored or delicate fabrics.

**For Use in Pet Areas**

- Pay special attention to areas where pets frequent, such as in and around sleeping and resting areas.
- Treat pet bedding and other pet resting areas since these are primary areas for flea development.
- This product is not for use on pets. [An important part of prevention is checking your pets for fleas. If fleas are present use [Brand Name] on-animal products before they return to treated areas.]

**STORAGE AND DISPOSAL:** STORAGE: Store in a cool, dry area away from heat or open flame. DISPOSAL: Replace cap, wrap container in several layers of newspaper, and discard in trash. Do not incinerate or puncture.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if inhaled, absorbed through the skin, or ingested. Avoid breathing spray mist. May cause eye irritation. Avoid contact with eyes, skin, and clothing. Wash thoroughly with soap and water after using. Avoid contamination of food, foodstuffs, and food preparation areas.

Remove pets and birds and cover and turn off fish aquariums before spraying. Contact veterinarian if pets are exposed during application.

**STATEMENT OF PRACTICAL TREATMENT**

**If inhaled** - Remove individual to fresh air. If not breathing give artificial respiration. Get medical attention. **If on skin** - Remove contaminated clothing and wash affected areas with soap and water. **If in eyes** - Flush eyes with plenty of water. Obtain medical attention if irritation persists.

**PHYSICAL OR CHEMICAL HAZARDS:**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

Contains no CFC or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

Seller makes no warranty, express or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instructions.
