UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
PREVENTION, PESTICIDES,
AND TOXIC SUBSTANCES

October 15, 2009

Nancy Huebl
Wellmark International
1501 E. Woodland Rd., Suite 200W
Schaumburg, IL 60173

Dear Ms. Huebl:

Subject: Label amendment
RF-2007 Collar
EPA Registration No. 2724-493
Submission Date: September 23, 2009

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records. Please submit two copies of your final printed labeling before you release the product for shipment. Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e).

In addition, please note that should you wish to add/retain a reference to the company's website on your label, the website then becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have any questions, please contact Julie Chao by phone at: (703) 308-8735, or by email at: chao.julie@epa.gov.

Sincerely,

John Hebert
Insecticide-Rodenticide Branch
Registration Division (7505P)

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON DOGS AND PUPPIES 12 WEEKS OF AGE AND OLDER

[This collar is designed to fit 99% of all dogs. In rare instances (for example, well developed St. Bernards or Mastiffs), the collar may be too short. If found short for your dog, return to address on label for full purchase price refund.]

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Buckle collar around dog's/puppy's neck. [Thread flat end of the collar through buckle hole and tighten as necessary, so that at least two ridges are covered by the buckle. Since the plastic buckle is molded into the collar, the possibility of neck irritation and buckle failure is reduced.] Collar should fit snug enough to prevent placement of the dog's/puppy's leg or lower jaw through the collar, yet loose enough to be rotated about the neck.
2. Leave 1-2 extra inches on the length of the collar for adjustment, cut off excess, and dispose of in trash.
3. Check periodically and adjust fit if necessary, especially when puppies are rapidly growing.
4. Replace in [150 days][5 months] or sooner if needed. [To release the collar, squeeze buckle between thumb and finger and pull sharply.] Collar does not need replacement if dog/puppy becomes temporarily wet.

To minimize flea infestation use appropriate [other {Brand Name} flea and tick] products to:

1. Treat the indoor environment, especially where pets spend time resting
2. Treat the outdoor environment when necessary
3. Only use EPA-registered products that are labeled for these uses.

STORAGE and DISPOSAL: **Storage:** Store in original unopened package away from children.
Disposal: Do not reuse container or collar. Dispose of in trash. Collar should be left in place once fitted on dog/puppy. If collar is temporarily removed, wrap in paper or plastic; do not allow children to have access to collar.

WHAT TO EXPECT:

For Fleas and Ticks:

1. This [brand name] collar is designed to kill adult fleas, ticks, and flea eggs over the entire pet.
2. This collar will provide continuous protection against fleas, ticks, and flea eggs [hatch] for up to [5 months][150 days].
3. Dead ticks will fall off or may be easily removed.
4. Replace collar every [5 months][150 days] or sooner if needed

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS-

CAUTION: Do not get dust or collar in mouth. Harmful if swallowed or absorbed through skin. Do not get dust in eyes, will cause temporary constriction of the pupils*. The dust released by this collar is a cholinesterase inhibitor. Avoid contact with skin, eyes or clothing. **NOTICE: This product contains propoxur, a chemical known to the State of California to cause cancer. (in red bold)**
Humans: Do not open package until ready to use. Do not allow children to play with this collar. Pesticidal dust will form on this collar during storage. Wash hands thoroughly with soap and water after handling collar.

Animals: Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant, or nursing dogs. Do not use on puppies under 12 weeks of age. Do not use this product on dogs/puppies simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting** drugs or pesticides (e.g. carbaryl or tetrachlorvinphos, etc.). However, flea and tick collars may be immediately replaced. When collar is first worn, observe neck area every few days for irritation. Remove collar at the first sign of irritation or adverse reaction. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, remove collar and bathe your dog/puppy with mild soap and rinse with large amounts of water.

FIRST AID	
Call a poison control center or doctor immediately for treatment advice	
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
IN CASE OF EMERGENCY, CALL [PHONE NUMBER] OR A POISON CONTROL CENTER. Have the product container or label with you when calling a poison control center or doctor or going for treatment.	
NOTE TO PHYSICIAN/VETERINARIAN: Contains an N-methyl carbamate that inhibits cholinesterase. *Atropine is antidotal only if symptoms of cholinesterase inhibition are present.
