RF 2016 MT

Alternate Brand Name: PreStrike® Mosquito Torpedo™

Effective [Controls][Protects] for up to [64 Days][9 Weeks][2 months]
 Each MT [Controls][Protects] for up to [64 Days][9 Weeks][2 months] 180 day control for 3 pack
 Each [one] MT [torpedo] provides [60 days] up to [64 Days][9 Weeks][2 months] of protection and
 treats up to 100 sq ft of water surface area and up to 1,500 gallons of water
 Each MT kills mosquito larvae for up to [64 Days][9 Weeks][2 months] in standing water
 Concentrated formula treats for up to [64 Days][9 Weeks][2 months]
 Keeps on working for up to [64 Days][9 Weeks][2 months]
 No float [Discrete] design
 Easy to use [apply]
 Won't (will not) float away
 Effective [Discrete] control
 Drop-in design
 No unsightly [floating] debris
 When used as directed RF-2016 MT [will not adversely affect][will not harm][won't harm][is not
 detrimental to] humans, animals, fish, or vegetation
 [No adverse effects][will not harm][won't harm][no detrimental effects to] humans, animals, fish, or
 vegetation when used as directed
 Can be applied to areas that contain aquatic life, fish and plants
 Can be applied to areas used by or in contact with humans, animals, horses, livestock, pets, birds
 or wildlife
 No change [discoloration] in [of] water clarity [color]
 Won't [Will not] discolor water
 Won't [Will not] cloud water
 Sustained release insect growth regulator to prevent adult mosquito emergence (including those
 mosquitoes which may transmit West Nile virus)[and heartworm disease] and other mosquito
 borne [carrying] diseases
 Biochemical mosquito control [larvicide]
 An alternative (preventative) mosquito control product
 An alternative (preventative treatment) to chemical sprays
 Registered in all 50 states EPA registered
 Same technology used by public health and mosquito control agencies for over 20 years
 Prevents the development of adult mosquitoes
 Kills mosquito[s][larvae] in [stagnant] standing water [before the are able to bite][where they breed]
 Kills mosquitoes before they become breeding, biting adults
 Prevents mosquito larvae from developing into adults
 Kills pupae before adult mosquitoes can emerge [so adult mosquitoes can't emerge]
 Prevents emergence of breeding, biting adult mosquitoes
 Prevents future mosquito populations
 Kills mosquitoes before they hatch including those which may transmit West Nile virus [and
 heartworm disease]
 Helps Eliminate nuisance (disease carrying) mosquitoes
 Helps Stop the spread of mosquitoes
 Protection from mosquitoes
 Protects against nuisance/disease carrying mosquitoes
 Prevents (disease carrying) mosquitoes from hatching and spreading West Nile virus and other
 (serious) infections/diseases
 Reduces the mosquito population

Treat (standing) water; avoid chemical sprays
 Effective, out of sight [Discrete], mosquito control
 Mosquitoes can't bite if they can't hatch
 Helps reduce the threat of West Nile virus and other mosquito borne (carrying) diseases
 Helps control mosquito breeding [limits] [mosquito production] and the spread of West Nile virus (and other serious disease)
 Attack mosquitoes before they attack you [hatch]
 Treat mosquitoes at the source
 Standing Water Larvicide
 A pre-emptive strike [against nuisance and disease carrying mosquitoes]
 Pre-emptive strike combats threat of West Nile virus and other (mosquito-borne) diseases
 A spring [pre-season] [early season][preventative] approach to mosquito control
 A spring [pre-season] [early season][preventative] approach in reducing mosquito populations [infestations]
 Effectively reduces mosquito populations
 Use in early spring to prevent [reduce][limit] mosquitoes in standing water
 Pre-treat standing water [in spring] to reduce mosquitoes
 Stop mosquitoes before they start
 Prevent early mosquito infestations
 Spring [pre-season] mosquito control [prevention]
 Apply to [Use in][Place in][Drop in][Treat] standing [stagnant] water [to prevent mosquitoes] in [around] your yard [where mosquitoes breed][and on your property]
 Use in any standing water that could be a potential mosquito-breeding site
 Apply in [Use in][Drop in] early spring to prevent mosquitoes from developing [hatching][into breeding biting adults][into adult mosquitoes which may transmit West Nile virus (and heartworm disease), and other mosquito borne (carrying) diseases]
 For use in all water-holding receptacles where mosquitoes may breed including water gardens [and animal [horse] watering troughs]
 Use in [Place in] [Drop in] [Treat] any containerized water where mosquitoes may breed
 Easy to apply, drop-in larvicide [MT][tablet/dosage]
 For use [Placement] in permanent and temporary areas that support mosquito growth such as (see use sites)
 Use in [Place in] [Drop in] standing water wherever it accumulates [around your home]
 Place [Drop] in [Water Gardens, Ornamental Fountains, Animal [horse] Watering Troughs, Bird Baths, Pool Covers, Rain Barrels, Abandoned [unused] Swimming Pools or Spas, Old Tires, Flower Pots, Tree Holes, Urns, Rain Barrels, Roof Gutters, Statuary, Stock tanks, Buckets, Plastic Covers, Plant trays, Planters, Garbage Cans, Wheelbarrows, Hollow Trees, Drains, Privately Owned Ponds, Other Water-Holding Receptacles] where mosquitoes may breed [any other location where water collects and remains for periods of time]
 (Simply) [Just] Place [Drop] in standing [stagnant] water
 Apply to [Use in] [Drop in] privately owned ponds

ACTIVE INGREDIENT:
 S-Methoprene (Dry Weight Basis) (CAS #65733-16-6).....8.62%
OTHER INGREDIENTS:.....91.38%
 Total: 100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back panel for additional Precautionary Statements/First Aid

NET WEIGHT: Contains xxx [MT]

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION**

Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID	
Call a poison control center or doctor for treatment advice.	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-[phone number] for emergency medical treatment information.	

[Note: First Aid statement paragraph format may be used if space is limited.]

ENVIRONMENTAL HAZARDS

Do not apply to water that drains into public waterways.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Introduction: Using RF-2016 MT is an easy and effective way to kill developing mosquitoes in standing water before they become breeding, biting adults. With just one bite, adult mosquitoes may transmit West Nile virus and other viruses that can cause encephalitis in both people and animals. They may also transmit heartworm disease to dogs and cats. RF-2016 MT slowly and continuously releases an Insect Growth Regulator into water that prevents adult mosquito development for up to [64 days][2 months][9 weeks]. For larger sites requiring application of 2 MT's, an additional package will be required for 180 day control. Mosquito larvae exposed to treated water will die in the pupal stage before they reach adulthood.

Formatted: Font color: Black

How to Apply: Simply place RF-2016 MT in standing water sites where mosquitoes may breed. Remove only enough product from the package for immediate use. For best results, apply RF-2016 MT before the beginning of the mosquito season, and continue as directed below in the Application table.

Application Site Size			Application Rate	Frequency of Application
Sq Ft	Gallons	Water Depth		
< 100	< 1500 (may periodically dry out)	< 2 ft	1 RF-2016 MT	Reapply when product has dissolved.
< 100	< 1500 (does not dry out)	< 2 ft	1 RF-2016 MT	Reapply on 60 day cycle throughout mosquito season.
> 100	> 1500	> 2 ft	2 RF-2016 MTs	Reapply on 60 day cycle throughout mosquito season.

Application Sites: RF-2016 MT controls mosquitoes in water-holding receptacles and standing water sites around your home. Apply this product as a preventative measure (pre-flood treatment) to application sites before they fill with water. RF-2016 MT may also be used in sites that intermittently fill with water. RF-2016 MT will begin releasing its active ingredient into water as soon as it becomes wet, and will remain effective for up to [2 months][9 weeks][64 days] when continuously immersed in water. Do not apply to water that may drain into public waterways, such as streams or lakes.

Examples of application sites include, but are not limited to:

- Bird baths
- [Containerized] Water gardens
- Roof gutters
- Old tires
- Pool covers
- Ornamental fountains
- Flowerpots or planters
- Urns
- Unused swimming pools or spas
- Tree holes
- Rain barrels
- Garbage cans
- Wheelbarrows
- [Containerized] Privately-owned ponds
- Flooded areas
- Animal [Horse] watering troughs
- Man-made depressions
- Any other water-holding container
- [Containerized] Standing water in your yard

STORAGE & DISPOSAL: **Storage:** Store in cool, dry place. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent permitted by law, Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
