Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment – Acceptable Addition to Connecticut to the New York Use Site Restriction Statement
Product Name: RF 2016 MT
EPA Registration Number: 2724-499
Application Date: 07/03/2019
OPP Decision Number: 553024

Dear Ms. Melton,

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration

Page 2 of 2

OPP Decision No. 553024

process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Anna O'Neil by phone at (703) 347-8274 or via email at oneil.anna@epa.gov.

Sincerely,

Andrew Bryceland, Team Leader

RF 2016 MT

Alternate Brand Name: PreStrike® Mosquito Torpedo™

Note: Front Panel Use Site Statements Must have an asterisk to say: *Use in New York and Connecticut is only for containerized use sites.

Effective [Controls][Protects] for up to [64 Days][9 Weeks][2 months]
Each MT [treatment][Controls][Protects] for up to [64 Days][9 Weeks][2 months] 180 [300] day
control for 3 [5] pack
360 day control with 6 pack
[A / 1 / one] year of [control / protection] with 6 pack

(in text box)

[use one or more bullets] Each [insert product name]
- provides up to 64 days of protection
- treats up to 100 sq ft of water surface
- treats up to 1,500 gallons of standing water

Each [torpedo / bomb / sinker / tablet / treatment / insert product name] provides 60 days of protection
Each [one] MT [torpedo] [treatment] provides [60 days] up to [64 Days][9 Weeks][2 months] of protection and treats up to 100 sq ft of water surface area and up to 1,500 gallons of water
Each [insert product name] treats up to 100 sq. ft. [of water surface]
Each MT [treatment] kills mosquito larvae for up to [64 Days][9 Weeks][2 months] in standing water
Concentrated formula - each [torpedo / sinker / tablet / bomb / product name] treats [up to][100 sq. ft./1,500 gallons of water]
Concentrated formula [- compact but powerful]
Concentrated formula [treats/works] for up to [64 Days][9 Weeks][2 months]
Keeps on working for up to [64 Days][9 Weeks][2 months]
Starts to release [active ingredient] immediately [in water]
No float [Discrete] design
[Treatment / insert product name] sink(s) to treat entire water column
Treats water from bottom to top
Easy to use [apply]
Pre-dosed [treatments / insert product name] - no measuring [needed]
No mixing or measuring [needed] [- simply drop in standing water]
Won't (will not) float away
[Treatment / insert product name] stay[s] where you put [it / them]
Effective [Discrete] control
Drop-in design
No unsightly [floating] debris
Can be [applied to/used in] areas that contain aquatic life, fish and plants
Can be used in fish habitats
[Can be used in] [Use in] [Treat] standing water [to prevent mosquitoes] [where mosquitoes breed]
Can be applied to areas used by or in contact with [humans, /animals, /horses,/ livestock, /pets, /birds /or wildlife]
[Approved for use / can be used] around people and pets
No change [discoloration] in [of] water clarity [color]
Does not [impact / affect] water color or clarity
Won't [Will not] discolor water

Won't [Will not] cloud water

Sustained release insect growth regulator to prevent adult mosquito emergence (including those mosquitoes which may transmit West Nile virus)[and heartworm disease] and other mosquito borne [carrying] diseases

[Sustained / extended / continuous] release [insect growth regulator] [formula]

Biochemical mosquito control [larvicide]

An alternative (preventative) mosquito control product

An alternative (preventative treatment) to chemical sprays

Same [technology/ ingredient] used by public health and mosquito control agencies [for over 30 years]

Kills mosquito[es][larvae] in containerized [stagnant] standing water [before they are able to bite][where they breed]

Kills mosquitoes before they become breeding, biting adults

Kills developing mosquito larvae [pupae]

Kills mosquitoes before they hatch

Kills mosquitoes before they hatch including those which may transmit West Nile virus [and heartworm disease]

Kills pupae before adult mosquitoes can emerge [so adult mosquitoes can't emerge]

Kills mosquitoes – not fish or other creatures!

Kills mosquitoes – not [fish or] beneficial insects

Kills mosquitoes, not beneficial aquatic life

Kills mosquitoes and related organisms – nothing else!

Kills mosquitoes and related organisms – that's all!

Prevents [mosquito larvae/mosquitoes] from developing into adults

Prevents developing mosquitoes [mosquito larvae] from becoming breeding, biting adults

Prevents (disease carrying) mosquitoes from hatching and spreading West Nile virus and other (serious) infections/diseases

Prevents the development of adult mosquitoes that may transmit diseases** [by killing larvae]

** (such as West Nile virus, Zika virus, dengue, chikungunya, St. Louis encephalitis, Western equine encephalitis and Eastern equine encephalitis)

Prevents the development of adult mosquitoes

Prevents emergence of breeding, biting adult mosquitoes

Prevents future mosquito populations

Prevent early mosquito infestations

[Break(s) / stop(s)] [the] mosquito lifecycle [with *insert brand name*]

Helps Eliminate nuisance (disease carrying) mosquitoes

Helps Stop the spread of mosquitoes

Protection from mosquitoes

Protects against nuisance/disease carrying mosquitoes

Reduces the mosquito population

Treat (standing) water; avoid chemical sprays

Effective, out of sight [Discrete], mosquito control

Mosquitoes can't bite if they can't hatch

Helps reduce the threat of West Nile virus and other mosquito borne (carrying) diseases

Helps control mosquito breeding [limits] [mosquito production] and the spread of West Nile virus (and other serious disease)

Attack mosquitoes before they attack you [hatch] [with *insert brand name*]

[Treats/ kill(s)/controls] mosquitoes at the source

Larvicide for Containerized Standing Water

Proactive mosquito control

A pre-emptive strike against mosquitoes

A pre-emptive strike [against nuisance and disease carrying mosquitoes]

Pre-emptive strike combats threat of West Nile virus and other (mosquito-borne) diseases
 A spring [pre-season] [early season][preventative] approach to mosquito control
 A spring [pre-season] [early season][preventative] approach in reducing mosquito populations [infestations]
 Effectively reduces mosquito populations
 Use in early spring to prevent [reduce][limit] mosquitoes in standing water
 Pre-treat containerized standing water [in spring] to reduce mosquitoes
 Stop mosquitoes before they start
 Spring [pre-season] mosquito control [prevention]
 Apply to [Use in][Place in][Drop in][Treat] standing [stagnant] water [to prevent mosquitoes] in [around] your yard [where mosquitoes breed][and on your property]
 Use in any standing water that could be a potential mosquito-breeding site
 Apply in [Use in][Drop in] early spring to prevent mosquitoes from developing [hatching][into breeding biting adults][into adult mosquitoes which may transmit West Nile virus (and heartworm disease), and other mosquito borne (carrying) diseases]
 Use this product to [kill / control] mosquitoes before they hatch, look for other [AMDRO Quick Kill® / insert other brand name] products to [kill / control] adult mosquitoes
 For use in all water-holding receptacles where mosquitoes may breed including water gardens [and animal [horse] watering troughs]
 Use in [Place in] [Drop in] [Treat] any containerized water where mosquitoes may breed
 Easy to apply, drop-in larvicide [MT][tablet/dosage][treatment]
 For use [Placement] in permanent and temporary areas that support mosquito growth such as (see use sites)
 [For] Use in fountains, ponds, rain barrels & other standing water (or insert other listed use sites)
 Use in [Place in] [Drop in] standing water wherever it accumulates [around your home]
 Place [Drop] in [Water Gardens, Ornamental Fountains, Animal [horse] Watering Troughs, Bird Baths, Pool Covers, Rain Barrels, Abandoned [unused] Swimming Pools or Spas, Old Tires, Flower Pots, Tree Holes, Urns, Rain Barrels, Roof Gutters, Statuary, Stock tanks, Buckets, Plastic Covers, Plant trays, Planters, Garbage Cans, Wheelbarrows, Hollow Trees, Drains, Privately Owned Ponds, Other Water-Holding Receptacles] where mosquitoes may breed [any other location where water collects and remains for periods of time]

(Simply) [Just] Place [Drop] in standing [stagnant] water
 Apply to [Use in] [Drop in] privately owned ponds
 Guaranteed to work† († or your money back)
 Made in USA

- The first step [in / to] [integrated] mosquito control
- [One / 1 / First]: Kill mosquito larvae [in standing water] [where they breed]
- [Integrated] mosquito control starts with [larvicides / killing larvae]
- Protection from nuisance and disease-carrying mosquitoes
- Protection from mosquitoes that may [carry / transmit] West Nile Virus and Zika Virus
- For best results, use this product as part of a comprehensive mosquito control program. Visit www.amdro.com to learn more.
- Value [size / pack]
- [First] use [this product / insert larvicide brand/product name] to [kill/control] mosquitoes before they hatch, [then] use [insert adulticide brand/product name] to kill adult mosquitoes

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION

Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID	
Call a poison control center or doctor for treatment advice.	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-[phone number] for emergency medical treatment information.	

[Note: First Aid statement paragraph format may be used if space is limited.]

ENVIRONMENTAL HAZARDS

Do not apply to water that drains into public waterways.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Introduction: Using RF-2016 MT [treatment] is an easy and effective way to kill developing mosquitoes in standing water before they become breeding, biting adults. With just one bite, adult mosquitoes may transmit West Nile virus and other viruses that can cause encephalitis in both people and animals. They may also transmit heartworm disease to dogs and cats. RF-2016 MT [treatment] slowly and continuously releases an Insect Growth Regulator into water that prevents adult mosquito development for up to [64 days][2 months][9 weeks]. [For larger sites requiring application of 2 MT's [treatments], an additional package will be required for 180 day control.] Mosquito larvae exposed to treated water will die in the pupal stage before they reach adulthood.

How to Apply: Simply place RF-2016 MT [treatment] in standing water sites* where mosquitoes may breed. Remove only enough product from the package for immediate use. For best results, apply RF-2016 MT [treatment] before the beginning of the mosquito season, and continue as directed below in the Application table.

*Use in New York and Connecticut is only in contained sites that do not runoff to public waters.

Application Site Size			Application Rate	Frequency of Application
Sq Ft	Gallons	Water Depth		
< 100	< 1500 (may periodically dry out)	< 2 ft	1 RF-2016 MT [treatment]	Reapply when product has dissolved.
< 100	< 1500 (does not dry out)	< 2 ft	1 RF-2016 MT [treatment]	Reapply on 60 day cycle throughout mosquito season.
> 100	> 1500	> 2 ft	2 RF-2016 MTs [treatments]	Reapply on 60 day cycle throughout mosquito season.

[Optional Reference Charts]

[Quick Reference] [Chart]		
Each <i>[insert product name]</i> :		
- Provides up to 64 days of protection		
- Treats up to 100 sq. ft.		
- Treats up to 1,500 gallons of standing water		
[Quick Reference] [Usage] [Chart]		
Amount	1 TBSP	1 LB
Surface Area	Up to 576 sq. ft.	Up to 8,712 sq. ft.
Volume	Over 2,000 gal.	Over 25,000 gal.

Application Sites: RF-2016 MT [treatment] controls mosquitoes in water-holding receptacles and standing water sites around your home. Apply this product as a preventative measure (pre-flood treatment) to application sites before they fill with water. RF-2016 MT [treatment] may also be used in sites that intermittently fill with water or may flood after rain. RF-2016 MT [treatment] will begin releasing its active ingredient into water as soon as it becomes wet, and will remain effective for up to [2 months][9 weeks][64 days] when continuously immersed in water. Do not apply to water that may drain into public waterways, such as streams or lakes.

Examples of application sites include, but are not limited to:

- Bird baths
- [Containerized] Water gardens
- Roof gutters
- Old tires
- Pool covers
- Ornamental fountains
- Flowerpots or planters
- Urns
- Unused swimming pools or spas
- Tree holes
- Rain barrels
- Garbage cans
- Wheelbarrows
- [Containerized] Privately-owned ponds*
- Flooded areas
- Animal [Horse] watering troughs
- Man-made depressions
- Any other water-holding container
- [Containerized] Standing water in your yard

*Not in New York and Connecticut

STORAGE & DISPOSAL: **Storage:** Store in cool, dry place. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent permitted by law, Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
