SUBJECT: NOTIFICATION OF ALTERNATE BRAND NAME PER PRN 98-10
RF2004 (CCSO)/EPA REG. NO. 2724-504

Dear Mr. Gebken:

Enclosed is a completed EPA Form 8570-1 and one copy of revised highlighted labeling (red is new text) for the above product. This label serves as notification of the alternate brand name: ZODIAC® Multi-Cat Spot On® Plus Flea & Tick Control for Cats 5 lbs. and Over. I have enclosed a self-addressed postcard for notification confirmation.

If you have any questions, please, call me directly at 847/330-5376. Thank you for your assistance in this matter.

Yours sincerely,
WELLMARK INTERNATIONAL

USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER

[Specially formulated for cats [& kittens]][For use on cats only][Do not use on other animals]

INTRODUCTION:

[RF2004CCSO is a topically applied [long-lasting] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox][Brand Name], which kills biting adult fleas, deer ticks, and mosquitoes your cat may acquire from its surroundings. A single application of RF2004 (CCSO) will provide egg hatch inhibition for up to 30 days [1 month][4 weeks]. Each package contains enough product for xx monthly applications (xx days of protection [control]). RF2004 (CCSO) provides relief from flea infestations for up to 1 month [4 weeks] by killing adult fleas on your cat or kitten and flea eggs in your home. Adult fleas can live on your pet while producing vast numbers of eggs, which drop off your pet and develop in the surrounding environment. Normal insecticides will not kill the flea eggs, but RF2004 (CCSO) [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat relief from flea bites at the same time.

After application, your cat's natural skin oils [disperse] carry RF2004 (CCSO) over your cat's body for protection against biting adult fleas and the development of flea eggs. [(product) may stain leather and suede fabrics for (24)(24 to 48) hours after application.] Once adult fleas are evident on your cat, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your pet's bedding (home sprays, foggers), as well as your yard (yard spray/outdoor fogger) with traditional flea products approved for use on pets, around the home, or in your yard. RF2004 (CCSO) can be used in conjunction with other ZODIAC [HARTZ®] premise products. As with all flea products, they are [RF2004 (CCSO) is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's environment. ZODIAC [HARTZ] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of ZODIAC [HARTZ] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product contains xx monthly dosages [one monthly dose], each (1 and 1.8 ml [cc]). Do not apply more than once every month.

USE ONLY ON CATS AND KITTENS 12 WEEKS OF AGE AND OLDER.

Do not get this product in your cat's eyes or mouth.

[1 ml [cc] dose for use on cats and kittens under 5 lbs.

1.8 ml [cc] dose for use on cats and kittens 5 lbs. and over (Same size applicators with different fill amounts)]

[APPLICATION METHOD]

[Bend at perforation and tear off 1st month's applicator.] Hold [applicator] upright [and bend area of plastic at perforation, tear off and discard.] [Hold applicator upright] and snap tip back, away from face and body.

Prior to application of the product, gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [applicator] tube on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried. Repeat application once monthly.

ALTERNATE PACKAGING DIRECTIONS 1 (CAT-HEAD APPLICATOR)

[Bend at perforation and tear off 1st month's applicator.] Hold [applicator] upright and bend numbered area of plastic at perforation, tear off and discard. Hold applicator upright away from face and body and use scissors to cut secure seal applicator tip. Prior to application of the product, gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [applicator] tube on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried. Repeat application once monthly.

ALTERNATE PACKAGING DIRECTIONS 2

Remove one applicator tube from the package and hold in an upright position (pointed away from your face). Hold bottom of tube with one hand. With other hand, snap cap off. Prior to application of the product, gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [applicator] tube on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried. Repeat application once monthly.

ALTERNATE PACKAGING DIRECTIONS 3 (for new subregistrant ampoule openings)

1. Remove one applicator [tube] from the package and hold in an upright position pointed away from your face.
2. Twist dispensing tip clockwise about ½ turn while pushing down to break the applicator's [tube's] seal. Do not remove the dispensing tip.
3. Prior to application of the product, using the dispensing tip of the applicator [tube], gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the dispensing tip of the applicator [tube] on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried.
4. Repeat application once monthly.

ALTERNATE PACKAGING DIRECTIONS 4 (for new subregistrant ampoule openings)

1. Remove one applicator [tube] from the package and hold in an upright position pointed away from your face.
2. Twist dispensing tip clockwise about ½ turn until you feel it click into place. Do not remove the dispensing tip.
3. Prior to application of the product, using the dispensing tip of the applicator [tube], gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the dispensing tip of the applicator [tube] on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried.
4. Repeat application once monthly.

ALTERNATE PACKAGING DIRECTIONS 5 (for new subregistrant ampoule openings)

1. Remove one applicator [tube] from the package and hold in an upright position pointed away from your face.
2. Squeeze the middle of the dispensing tip at the grooved pad to break the inner seal. Do not remove the dispensing tip.
3. Prior to application of the product, using the dispensing tip of the applicator [tube], gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the dispensing tip of the applicator [tube] on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried.
4. Repeat application once monthly.

ALTERNATE PACKAGING DIRECTIONS 6

1. Remove one applicator tube from the package and hold in an upright position pointed away from your face.
2. Pull off cap. Turn the cap around and place on top of tube.
3. Simply press cap down to break the seal of tube. Remove cap carefully.
4. Prior to application of the product, gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the tube on the cat's exposed skin and squeeze out the entire contents of the tube onto the cat's skin. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried.
5. Repeat application [once every month][once monthly].

STORAGE AND DISPOSAL: **Storage:** Store in a cool, dry place. Do not store unused applicators [tubes] separately from their packaging. **Container Disposal: If empty:** Do not reuse empty applicator [tube]. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS: Repeated exposure to etofenprox can cause skin irritation.

HAZARDS TO ANIMALS: For External Use on Cats Only. **Do not use on kittens less than 12 weeks old.** Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
