FOR TOPICAL USE ONLY. DO NOT INGEST.

Use Restrictions:

The maximum application rate is once per week.

Thoroughly wet [the hair][the animal][your pet] with warm water. Use [Brand Name] full strength. Do not apply shampoo directly in or on the eyes, mouth or genitalia of animals. Apply 1 1/3 tablespoons shampoo for each 5 lbs of pet's weight. Estimate the total amount of shampoo needed for your pet [animal], then spread the shampoo along the back of the animal [pet]. Work well into coat starting at the head and working back. Spread lather to include the neck, legs, and feet. Continue to work lather in over the whole animal [pet] for 3 to 5 minutes (this is an important part of the grooming procedure). After lather has been worked in over the entire pet [animal], rinse [animal][pet] thoroughly with warm water. For extremely dirty or scaly animals [pets], the above procedure may be immediately repeated. Repeat as necessary but do not apply more than once per week, for control of adult fleas and ticks.
