

OCT 1 - 2007

Ms Nancy Huebl  
WELLMARK International  
1501 East Woodfield Road Suite 200 West  
Schaumburg, ILL 60173

Dear Ms. Huebl:

Subject: Final Printed labeling  
EPA Registration Number: 2724-699  
Product Name: Crawling Insect Killer II  
Application date: September 7, 2007

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable subject to the comment listed below.

1. The company name and address must be on the pesticide label prior to marketing of the product. The address must be that of the manufacturer, preceded by phrase "Manufactured by ....." if you are not the manufacturer (producer) the name must be qualified by the phrase "Manufacturer for...." to indicate that the name shown is not the producer. The name and address must be displayed prominently and within the range of the type size that is required for all label text. The name and address may be placed anywhere on the label, but referred on the front panel.
2. The Net Contents must appear on the label and the EPA Establishment No. must appear on the label or container prior to marketing.

Pg 2 EPA Reg. No. 2724-699

Enclosed is a copy of your stamped label "Accepted with Comments" Submit two (2) copies for the final label for the file.

To expedite handling, please return a copy this letter with your corrected labels. If you have questions regarding this letter, please contact Ms. Pat Quarles @ (703) 305-6876.

Sincerely,

George LaRocca  
Product Manager 13  
Insecticide Branch  
Registration Division 7505P

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and other aquatic organisms. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

**PHYSICAL OR CHEMICAL HAZARDS**

Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL LABEL PRECAUTIONS AND DIRECTIONS.**

**GENERAL INFORMATION:** Crawling Insect Killer II provides effective control of pests in and on buildings and structures and their immediate surroundings and on modes of transport. Permitted areas of use include areas such as: apartment buildings, homes, hospitals, and the non-food/feed areas of hotels, industrial buildings, laboratories, mausoleums, motels, nursing homes, private residences, schools, stores, utilities warehouses, and in non-food areas of restaurants, food manufacturing, processing, and servicing establishments, and on: vessels, rail cars, aircraft (cargo areas only), buses, trucks, and trailers.

**Note:** Do not apply to classrooms when in use. Do not use in aircraft cabins. Do not apply to patient rooms in hospitals and nursing homes while occupied. For use in the non-food and non-feed areas of food and feed handling establishments. Non-food and non-feed areas of food and feed establishments are areas such as garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning and bottling). Do not use in food or feed areas of food or feed handling establishments, restaurants or other areas where food or feed is commercially prepared or processed. Do not use in serving areas while food is exposed or the facility is in operation. Serving areas are areas where prepared foods are served, such as dining rooms but excluding areas where foods may be prepared or held. Remove food from food serving areas of commercial establishments prior to treatment. Wash all exposed food serving surfaces thoroughly with potable water following treatment and before use. In homes, remove all food and cooking utensils. Cover all food handling surfaces and wash thoroughly after treatment and before use. Repeated exposure to etofenprox can cause skin irritation.

Hold container upright with nozzle away from you. Press valve down and spray as directed. Spray surface until slightly wet (at a rate of 1 second to treat approximately 1 linear foot of baseboard area).

**Repeat treatments to infested areas as necessary at intervals of 14 days or greater. Do not make more than 6 applications per site per year.**

#### **INDOORS:**

**Cockroaches, Ants, Crickets, Earwigs, Firebrats, Fleas, Silverfish, Spiders, and Sowbugs:** Apply as a spot or crack and crevice treatment. Apply thoroughly to areas where these pests crawl and hide, especially in cracks and crevices, and hidden surfaces around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and in similar areas.

**Ants:** Spray around ant trails, doors and windows, and other places where ants enter premises. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris.

**Fleas in Buildings:** Apply to infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other areas where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment of pet areas. Do not apply directly on animals.

**Spiders:** Apply along and behind baseboards, to window and doorframes, corners, pipes, storage localities, attics, crawlspaces, and other areas over which these pests may crawl.

**Earwigs, Mole Crickets, Pillbugs, and Sowbugs:** Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

Pantry Pests - Exposed Stages of Saw-toothed Grain Beetles, Flour Beetles (Red and Confused), and Cigarette Beetles: Treat exposed stages. Remove all foodstuffs, utensils, and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves, and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food, and utensils.

Carpet Beetles (Black, Furniture, and Varied): Spray on and under edges of floor coverings, under rugs and furniture, and in closets or other localities where these insects are found.

#### **OUTDOORS:**

Point spray nozzle away from face. Hold can on slight downward angle. For best results, spray when air is calm. Spray with wind if breeze is blowing. Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops.

**PESTS ON OUTSIDE SURFACES OF BUILDINGS:** For control of building infestation due to Ants, Crickets, Earwigs, and Sowbugs (Pillbugs)- Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages, and refuse dumps.

#### **STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Do not store near heat or open flame. Store in cool dry area away from children.

**DISPOSAL:** Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
