1. DIRECTIONS FOR USE WITH APPLICATOR RF2164 A/T COMBO

[Back Panel]

[RF2164 A/T COMBO] prevents flea eggs from developing into adult fleas [] for up to [75 days][10 weeks][2.5 months]. RF2164 A/T COMBO also kills fleas and ticks for 3 weeks and kills and repels mosquitoes for 3 to 4 weeks.]

Effective flea & tick control for your dog/puppy.

[brand] provides flea and tick protection for dogs/puppies for up to 30-days – and protection from flea reinfestation for up to [75 days][10 weeks][2.5 months]. That’s because it doesn’t just kill adult fleas and ticks, it also prevents reinfestation by knocking out flea eggs and larvae that could hatch later on. Plus, it kills and repels mosquitoes.

A unique, convenient applicator for you. The [brand] Applicator is specially designed to make applying flea and tick control easier, more precise -- and neater – than ever before. You simply insert the appropriate [brand] tube [vial][cartridge] for your dog/puppy into the applicator, close it and squeeze to apply. The applicator’s ergonomic, contoured shape [design] makes it easy to grip and a built-in fin [tip] [comb] helps to spread [part] the [your] dog’s/puppy’s hair to allow the liquid to more readily [better] reach [apply] the [to] [your dog’s/puppy’s] skin. The tube [vial][cartridge] is sealed inside, so you can be confident that the liquid goes onto your dog/puppy – and not your hand. Plus, if the applicator is laid down on a table, counter or other flat surface, it won’t run out or drip.
