

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Registration No.

2724-813

Date of Issuance:

DEC -2 2011

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

Term of Issuance:

**Conditional Registration
Expires December 2, 2013**

Name of Pesticide Product:
RF2170 A/T COMBO

Name and Address of Registrant (include ZIP Code):

Wellmark International
1501 E. Woodfield Road
Suite 200W
Schaumburg, Illinois 60173

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(a) provided that:

1. This registration is time-limited and expires two years from the date this product is first released for shipment.

You must provide the Agency with a projected release for shipment date within 30 days of the date of this Notice of Registration. The Agency will calculate the expiration date based on the projected release for shipment date until an actual release for shipment date is provided in writing.

2. The basic CSF dated May 2, 2010 is acceptable and becomes the CSF of record.
3. Make the following changes to the label:
 - a. The claim "New [formula]" and other claims employing the word 'New' may appear on product produced for 6 months from the date of first distribution only.
 - b. Revise the EPA Registration Number to read: "EPA Registration No. 2724-813.
 - c. Remove "tularemia" from the label.
 - d. Remove "Innovative flea and tick application system [applicator]" from the label.

e. Make the following changes on the **Front Panel**

Include the word "cat" in your product's brand name and increase the size of the word "cat" to 75% the height of the largest letter in the primary brand name.

Include the word "only" when referring to cat size and age and place this restriction in a box prominently on the front panel. Examples: "Only for use on cats larger than 9 lbs."; "Use only on cats weighing between 1 and 7 lbs."; and "Only for use on kittens older than 8 weeks."

Place a large, clear picture of a cat in the weight range for the product as packaged on the front panel of the label.

f. Make the following changes to the **Back Panel**:

Place a box on the back panel labeled "Side Effects" at the lower right hand corner of the back panel. Either include the language below or propose your own side effects language based on incident reports, companion animal safety data, and/or clinical trials, if available. *"Monitor your cat after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or [Registrant at 1-800-number]."* Please note that the Agency prefers product-specific warnings, where available, but understand that some registrants were requesting more specific guidance. In the event that you want to provide alternate or varying language please discuss your reasons for the change.

g. Directions for Use:

Repeat the word "cat" throughout the directions for use.

Include the word "only" when referring to cat size and age restrictions.

To avoid overdose for cats larger than 20 lbs, please provide specific language which instructs consumers to not double-dose animals larger than the upper weight limit on the package for the largest size cats.

On the smallest package size, please include lower weight limit which corresponds to the lower limit of the dose ranges based on animals tested in your supporting companion animal study. Include the language "Do not apply to cats weighing less than [insert weight] lbs" where [insert weight] is replaced with the lowest weight in pounds of the animals tested in your supporting companion animal study.

Include the language, "Do not allow your cat to ingest this product."

h. Applicator Vial: Place weight and age restrictions on the immediate container for the vial and/or the vial itself.

- 4. You must submit enhanced incident reports for this product on a quarterly basis beginning April 1, 2011. Please flag any Confidential Business Information as such. Enhanced incident reporting should be submitted to the Product Manager. Quarterly sales information should be submitted to the Registration Division (7505P), Insecticides Branch (ATTN: Richard Gebken).

The following is a list of information needed by EPA to better characterize these incidents:

EPA Registration Number

Product name (brand name)

Lot #

Where purchased: internet, store, veterinarian

Active Ingredient(s)

Weight range for product

Date on which incident occurred. (mm/dd/yyyy)

State in which the incident occurred. (standard 2 letter abbreviation)

Registrant case #

Species: dog, cat, other (specify)

Breed: (as reported by pet owner)

Age: months or years

Sex: M, F, or neutered

Weight: pounds

Primary Route of Exposure: dermal, oral, other animal, inhalation, other

Body System: neurological, dermatological, GI, respiratory, ocular, other

Major signs noted with separate column for each sign, using standard terminology

Time to Onset: (hours, days)

Treated by veterinarian: yes or no

First time product used: yes or no

Misuse: use on incorrect species, overdose, too frequent dosing, other (describe)

Any known precondition

EPA Severity Code: death, major, moderate, minor

Outcome: died, recovered, still treated, unknown

Along with the enhanced incident reporting, you must submit an analysis of the incidents seen, to include the following details:

All incidents should be reported including all minor dermal and ocular irritation reports.

Summary table for cats showing number of incidents of each severity code for each route of exposure. Each incident should only be reported once. If one incident has several routes of exposure, the order should be ocular > oral > dermal. In other words, an incident with both oral and dermal exposure would be reported as oral exposure, and an incident with both ocular and oral exposure would be reported as ocular exposure.

A similar summary table for dogs (misuse or secondary exposure) showing number of incidents of each severity code for each route of exposure.

Summary table for cats and table for dogs showing number of incidents that are believed due to secondary exposure (e.g., multi-pet households).

A summary table for cats showing number of incidents for each severity code for these age ranges: <3 months, 3-6 months, 6-9 months, 9-12 months, 1 yr, 2 yr, 3 yr, 4 yr, 5 yr, 6 yr, 7 yr, 8 yr, 9 yr, 10 yr, 11 yr, 12 yr, 13 yr, 14 yr, 15 yr, >15 yr.

A summary table showing the number of cat incidents for each severity code for each pet weight range on the product label.

A summary table for cat weight showing number of incidents for each product weight range. This table should show number of incidents in cats weighing less than that product weight range, number of incidents in cats in lower half of weight range, number of incidents in cats in the upper half of weight range, and cats weighing more than the product weight range.

Table showing number of incidents for each cat breed.

Table showing number of incidents in cats for each clinical sign.

Table showing number of incidents in cats for each organ system.

Report aggregate incidents, but do not combine moderate and minor incidents

- 5. You must submit and/or cite all data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data, and submit acceptable responses required for reregistration of your product under FIFRA section 4.
- 6. The acute toxicity profile for this product is as follows:

Route of Exposure	Toxicity Category
Acute oral toxicity	IV
Acute dermal toxicity	IV
Acute inhalation toxicity	Waived
Primary eye irritation	IV
Primary skin irritation	IV
Dermal sensitization	Negative

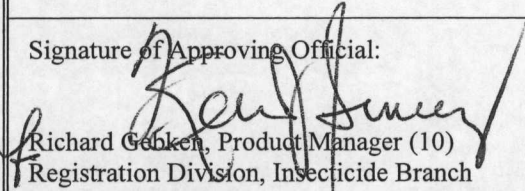

- 7. A stamped copy of the label is included for your file. Two copies of the finished labeling must be submitted prior to releasing the product for shipment. Submit the following with the finished labeling:
 - Master labels as they will appear when printed on product boxes for all product dose ranges.
 - Copies of any package inserts that may be provided in product packaging (including such things as monthly reminder stickers and additional directions for use).
 - Images of vial packaging and labeling (actual empty vial can be provided instead,

but it is not required).

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

If EPA determines that future mitigation measures are necessary for all pet spot-ons, the Agency will inform registrants. If mitigation measures are necessary, EPA may take regulatory action. If you have any questions concerning this registration, please contact Kevin Sweeney at (703) 305-5063.

IGR /Flea egg/life cycle Claims:

[Plus][Contains][With] PRECOR® [vIGRen®][S-Methoprene], the first insect growth regulator for flea control

Contains [Features] an Insect Growth Regulator (IGR) to inhibit the development of flea eggs

Flea control for cats with [PRECOR®][vIGRen®] Insect Growth Regulator (IGR) [(S)-Methoprene] Insect Growth Regulator (IGR) interrupts the development of the flea life cycle [at the egg stage]

[(S)-Methoprene] Insect Growth Regulator (IGR) prevents the development of flea eggs into adult fleas and [inhibits the development of flea eggs into adult fleas]

Controlling flea reproduction is the first step in controlling flea populations on your cat/kitten

[(S)-Methoprene] Insect Growth Regulator (IGR) prevents flea reinfestation on your cat/kitten

Flea treatment and preventative with an [insecticide] adulticide and Insect Growth Regulator (IGR)

[With [S-Methoprene] Insect Growth Regulator [IGR] to Break Flea Life Cycle]

Controls[Kills][Lasts][Works][Protects] flea infestations for up to [1 month][4 weeks]

[Contains an Insect Growth Regulator (IGR) to kill flea eggs and prevent flea development for [1 month][30 days][4 weeks]

[Controls flea reinfestation for [1 month][30 days][4 weeks]

Breaks the flea life cycle for [up to] [1 month][4 weeks][30 days]

Kills [Controls] flea eggs for up to [30 days][1 month][4 weeks][per application]

Kills flea eggs, the source of home flea infestations and cat/kitten re-infestations, for up to [30 days][1 month][4 weeks]

[Kills][Prevents][Keeps] flea eggs from hatching for up to [30 days][1 month][4 weeks]

Prevents flea eggs from developing into biting adults for up to [30 days][1 month][4 weeks][per application]

Prevents re-infestation for up to [1 month][30 days][4 weeks]

Advanced [topical][flea egg treatment] that's easy and convenient to use

An effective flea topical [A Spot On] product that kills adult fleas and halts the development of flea eggs [immature stages in the flea life cycle]

Controls existing fleas and flea eggs, plus [and][prevents] future flea infestations

Interrupts normal flea development [Stops the flea life cycle]

Interrupts the flea life cycle

Kills [flea] eggs before they hatch into biting adults

Kills hatching [developing] flea eggs

One-two punch controls fleas and flea eggs

Plus kills flea eggs and larvae to prevent future infestations

Prevention Claims

Preventing fleas and deer ticks from infesting your cat/kitten is much easier than treating an existing problem

Flea prevention has never been easier

An excellent preventative, offering protection against fleas

Prevents flea, deer tick, and mosquito infestations

Prevents flea recurrence

Control flea infestations by preventing them

Flea prevention is the best flea control strategy

Quick and sure flea, deer tick, and mosquito prevention

A quick and sure way to avert a flea problem is to [prevent it] use a preventative

It is far easier to prevent fleas than to control them

Flea control involves [requires] preventative measures [for your cat/kitten][and] [Year-round][Flea Treatment][Preventative]

Use a flea preventative year-round (to prevent painful bites, itching and scratching, discomfort)

Application claims

USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND [OVER 2.5 LBS AND UNDER 5 LBS][5 LBS AND OVER]

[Specially formulated for cats [& kittens]][For use on cats only][Do not use on other animals]

INTRODUCTION:

A unique, convenient applicator for you.

The new [brand] Applicator is specially designed to make applying flea and tick control easier, more precise -- and neater - than ever before. You simply insert the appropriate [brand] tube [vial][cartridge] for your cat/kitten into the applicator, close it and squeeze to apply. The applicator's ergonomic, contoured shape [design] makes it easy to grip and a built-in fin [tip] [comb] helps to spread [part] the [your] cat's/kitten's hair to allow the liquid to more readily [better] reach [apply] the [to] [your cat's/kitten's] skin. The tube [vial] [cartridge] is sealed inside, so you can be confident that the liquid goes onto your cat/kitten - and not your hand.

[RF2170 A/T Combo] is a topically applied [long-lasting] [flea and tick treatment] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox], which kills biting adult fleas, deer ticks, and mosquitoes your cat/kitten may acquire from its surroundings. A single application of [RF2170 A/T Combo] will provide flea egg hatch inhibition for up to 30 days [1 month][4 weeks]. Each package contains enough product for xx monthly applications (xx days of protection [control]). [RF2170 A/T Combo] provides relief from flea infestations for up to 1 month [4 weeks][30 days] by killing adult fleas and flea eggs on your cat or kitten. Adult fleas can live on your pet while producing vast numbers of eggs, which drop off your pet and develop in the surrounding environment. Normal insecticides will not kill the flea eggs, but [RF2170 A/T Combo] [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat/kitten relief from flea bites at the same time.

After application, your cat's/kitten's natural skin oils [disperse] carry [RF2170 A/T Combo] over your cat's/kitten's body for protection against biting adult fleas and the development of flea eggs. [(This product) may stain leather and suede fabrics for (24)(24 to 48) hours after application.] Once adult fleas are evident on your cat/kitten, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your pet's bedding (home sprays, foggers), as well as your yard (yard spray/outdoor fogger) with traditional flea products approved for use on pets, around the home, or in your yard. [RF2170 A/T Combo] can be used in conjunction with other [Brand Name] premise products. As with all flea products, they are [RF2170 A/T Combo is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's/kitten's environment. [Brand Name] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of [Brand Name] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

USE RESTRICTIONS:

This product contains xx monthly dosages [one monthly dose], each (1 [0.34 fl oz] and 1.8 ml [cc] [0.61 fl oz]). Do not apply more than once every month. Do not use more than one tube/vial/cartridge per cat. Do not get this product in your cat's eyes or mouth.

RF2170 A/T COMBO works by application directly to the cat's/kitten's skin, not to the hair. When applying, use applicator device tip to push aside cat's/kitten's hair to allow direct application to the skin. Do not get this product in cat's/kitten's eyes or mouth.

[(Note: Application now assumes one tube[vial] [cartridge] per cat per application)]

The RF2170 A/T COMBO provides a unique applicator device that allows cat/kitten owners to treat their cats/kittens more securely, and dispose of liquid cartridges [tubes][vials]with less mess.

[Note: Each package contains sufficient cartridges/tubes/vials for [X] applications]

[1 ml [cc] [0.34 fl oz] dose for use on cats and kittens over 2.5 lbs and under 5 lbs.

1.8 ml [cc] [0.61 fl oz] dose for use on cats and kittens 5 lbs. and over (Same size applicators with different fill amounts)]

To apply the [RF2170 A/T COMBO] treatment, use one disposable liquid cartridge [tube][vial] [for each application] with the applicator device. Do not use more than one vial per cat.

1. OPEN [icon]

Use finger scoop to lift open [color] door [of applicator device].

2. LOAD [icon]

[To Load, place tube [cartridge] [vial] white side up into the applicator] [with [tip end][front] of tube placed under tab on door] [Tip end of tube [cartridge] must fit under the [U-shaped] [notch][tab] in the [color] [lid] [door]]. [Ensure that tube [cartridge][vial] fits securely in the applicator.]

3. CLOSE [icon]

[Gently] close the [color, e.g. green] door [and] the tube will snap open.

4. APPLY [icon]

The cat/kitten should be standing for easy application.

[To apply, use tip to part hair and get next to cat's/kitten's skin at the base of the skull. Press [shape e.g. square] [thumb pad][button] on [color] door and squeeze out the entire contents of the applicator [tube] [cartridge] onto the cat's/kitten's skin.]

-OR-

[To **APPLY** Use front edge of applicator to part fur and get next to cat's/kitten's skin at one spot at the base of the skull. Press [shape e.g. square] [button] on door. Repeat until tube is empty.]

-OR-

[To **APPLY** Use tip to part fur and get next to cat's/kitten's skin. **Press** [shape e.g. square] [button] on door [x times to empty tube] at one spot at the base of the skull.]

Do not spread RF2170 A/T COMBO by hand over the cat/kitten. [Although the cat's/kitten's skin and hair oils will naturally distribute the application over the entire cat/kitten, brushing the cat/kitten 12-24 hours after treatment will help to distribute the material over the skin.]

5. DISPOSE [icon]

To dispose of empty tube, open [color, e.g. green] door and drop [empty] tube into trash or offer for recycling if available. Close applicator device door and [return applicator to package until next use][store in original package.]

6. RETREAT AFTER 30 DAYS

Do not reapply product for 30 days. Do not treat more than once per month.
[Note: Each package contains sufficient cartridges/tubes/vials for [X] applications]

RF2170 A/T COMBO is most effective when used as part of a total flea and tick management program. Use other [Brand Name] products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.[The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with RF2170 A/T COMBO rapidly kills fleas and may reduce the incidence of this condition.](Optional marketing text for subregistrant)

[TREATMENT SCHEDULE

Dosage: Use Only 1 applicator every 30 days per cat/kitten

Pet's Name	First Treatment Date	Second Treatment Date (30 Days From 1 st)	Third Treatment Date (30 Days From 2nd)

NOTES: _____

REMINDER: I purchased [Brand Name] _____ from _____]

STORAGE AND DISPOSAL: **Storage:** Store in a cool, dry area away from children and animals. Do not store unused applicators [tubes] separately from their packaging. **Liquid Cartridge [vial] [tube] Disposal: If empty:** Do not reuse empty cartridge [vial] [tube]. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS: Repeated exposure to etofenprox can cause skin irritation.

HAZARDS TO DOMESTIC ANIMALS: For External Use on Cats Only. **Do not use on kittens weighing less than 2.5 pounds. Do not use on kittens less than 12 weeks old.**

Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

WARRANTY AND CONDITIONS OF SALE:

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
