OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

January 12, 2012

Ms. Nancy Huebl
Wellmark International
1501 East Woodfield Road, Suite 200W
Schaumburg, Illinois 60173

Subject: Label Notification(s) of Alternate Brand Name per PRN 98-10

Dear Ms. Huebl:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice PRN 98-10 dated November 15, 2011 to add an alternate brand name for the following product(s):

RF2175 CCSO-K

EPA Reg. No. 2724-814

**Alternate Brand Name(s):
Kirkland Signature Flea & Tick Control for Cats**

The Registration Division (RD) has conducted a review of this request to add Alternate Brand Name(s) and finds that the label change(s) requested falls within the scope of PRN-98-10 and has been found to be acceptable.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Regina Foushee'-Smith at 703-605-0780.

Sincerely,

A handwritten signature in black ink that reads "Richard J. Gebken".

Richard J. Gebken
Product Manager
Insecticide Branch
Registration Division (7505P)

[Specially formulated for cats [& kittens]][For use on cats only][Do not use on other animals]

INTRODUCTION:

[Brand] Flea & Tick Control for Cats is a topically applied long-lasting product specifically formulated for cats to prevent and control flea infestations. This product contains Etofenprox, which kills biting adult fleas, deer ticks and mosquitoes your cat may acquire from its surroundings. This product provides relief from flea infestations for up to 1 month by killing adult fleas on your cat or kitten and flea eggs in your home.

[RF2175 CCSO-K is a topically applied [long-lasting] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox][Brand Name], which kills biting adult fleas, deer ticks, and mosquitoes your cat may acquire from its surroundings. A single application of RF2175 CCSO-K will provide egg hatch inhibition for up to 30 days [1 month][4 weeks]. Each package contains enough product for xx monthly applications (xx days of protection [control]). RF2175 CCSO-K provides relief from flea infestations for up to 1 month [4 weeks] by killing adult fleas on your cat or kitten and flea eggs in your home. Adult fleas can live on your cat/kitten while producing vast numbers of eggs, which drop off your cat/kitten and develop in the surrounding environment. Normal insecticides will not kill the flea eggs, but RF2175 CCSO-K [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat relief from flea bites at the same time.]

[After application, your cat's natural skin oils [disperse] carry RF2175 CCSO-K over your cat's body for protection against biting adult fleas and the development of flea eggs. [(product) may stain leather and suede fabrics for (24)(24 to 48) hours after application.] Once adult fleas are evident on your cat, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your cat/kitten's bedding (home sprays, foggers), as well as your yard (yard spray/outdoor fogger) with traditional flea products approved for use on cats/kittens, around the home, or in your yard. RF2175 CCSO-K can be used in conjunction with other [Brand] premise products. As with all flea products, [they are] [RF2175 CCSO-K is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's environment. [BRAND] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of [Brand] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:

This product works by application directly to the cat's skin, not to the hair. When applying, manually push aside cat's hair to allow direct application to the skin. Do not use more than one tube/vial/cartridge per cat and do not apply more than once every month. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product.

USE ONLY ON CATS AND KITTENS 12 WEEKS OF AGE AND OLDER.

[1 ml [cc] [0.034 fl oz] dose for use on cats and kittens over 2.6 lbs and under 5 lbs.

1.8 ml [cc] [0.061 fl oz] dose for use on cats and kittens 5 lbs. and over (Same size applicators with different fill amounts)]

[APPLICATION METHOD]

1. [Bend at perforation and tear off 1st month's applicator.]
2. Hold [applicator] upright [and bend area of plastic at perforation, tear off and discard.] [Hold applicator upright] and snap tip back, away from face and body.
3. Prior to application of the product, gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [applicator] tube on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin.
4. Do not spread this product by hand over the cat. Do not bathe the cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried.
5. [Repeat application once monthly.][Do not treat more than once per month.]
6. Discard empty applicator as described in STORAGE and DISPOSAL

Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats/kittens with this product rapidly kills fleas and may reduce the incidence of this condition.

Adding a Dose Reminder section to appear as follows on the back panel:

First Monthly Application: Month _____ Day _____ Year _____
 Second Monthly Application: Month _____ Day _____ Year _____
 Third Monthly Application: Month _____ Day _____ Year _____
 [Fourth Monthly Application: Month _____ Day _____ Year _____]

Pet's Name	First Treatment Date	Second Treatment Date (30 Days From 1 st)	Third Treatment Date (30 Days From 2nd)

NOTES: _____

REMINDER: I purchased [Brand Name] _____ from _____]

STORAGE AND DISPOSAL: Pesticide Storage: Store applicators together in a cool area away from children and animals. **Container Disposal: If empty:** Do not reuse empty applicator [tube]. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS: Wash your hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation

HAZARDS TO ANIMALS: For External Use on Cats Only. **Do not use on kittens less than 12 weeks old or on kittens weighing less than 2.6 lbs.** Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your cat/kitten with mild soap and rinse with large amounts of water. If signs continue, please call 1-888-987-4110 or consult a veterinarian immediately. Due to the bitter taste of the product, oral exposure could result in salivation. Be careful not to get any product in the cat's mouth during application. For multiple cat households, prevent the cats from grooming each other until the product has dried. If the problem continues or other clinical signs are noted, please call 1-888-987-4110.

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after first 5 minutes, then continue rinsing • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-888-987-4110 for emergency medical treatment information.	

Side Effects: Monitor your cat after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or Wellmark at 1-888-987-4110. (This box will appear in lower right hand corner of back panel)

WARRANTY AND CONDITIONS OF SALE:

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

In case of emergency or for product information, call 1-888-987-4110 [or contact your veterinarian if your pet is experiencing an adverse event].
