

U.S. ENVIRONMENTAL PROTECTION AGENCY  
 Office of Pesticide Programs  
 Registration Division (7505P)  
 1200 Pennsylvania Ave., N.W.  
 Washington, D.C. 20460

**EPA Reg. Number:**

2724-814

**Date of Issuance:**

2/12/16

**NOTICE OF PESTICIDE:**

Registration  
 Reregistration

(under FIFRA, as amended)

**Term of Issuance:**

Conditional, Time-Limited  
 Expires: 02/12/2018

**Name of Pesticide Product:**

RF2175 CCSO-K

**Name and Address of Registrant (include ZIP Code):**

James McFadden, Ph.D.  
 Wellmark International  
 1501 E. Woodfield Road, Suite 200W  
 Schaumburg, IL 60173

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

**Signature of Approving Official:**

Jennifer Saunders, Ph.D.  
 Product Manager 04  
 Invertebrate & Vertebrate Branch 1  
 Registration Division (7505P)

**Date:**

2/12/16

2. The Agency has found your company to be in compliance with the terms and conditions for the subject product and is extending the two-year registration restriction. This registration is time-limited and expires 02/12/2018.
3. Please note that the product is still subject to all other previously required conditions of registration. Your company is required to adhere to the spot-on label mitigation, and to submit quarterly enhanced incident reports and quarterly sales information as stated in the registration notice dated 10/11/2011.
4. You are required to comply with the data requirements described in the DCI Order identified below:
  - a. Ethofenprox GDCI-128965-954
  - b. Ethofenprox GDCI-128965-1041

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI Order listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: [http://www.epa.gov/oppsrrd1/contacts\\_prd.htm](http://www.epa.gov/oppsrrd1/contacts_prd.htm)

5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Please note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/15/2011

If you have any questions, you may contact Elizabeth Fertich at 703-347-8560 or via email at [fertich.elizabeth@epa.gov](mailto:fertich.elizabeth@epa.gov).

**DO NOT ALLOW CHILDREN TO APPLY PRODUCT.**

[Specially formulated for cats [& kittens]][For use on cats only][Do not use on other animals]

**INTRODUCTION:**

[Brand] Flea & Tick Control for Cats is a topically applied long-lasting product specifically formulated for cats to prevent and control flea infestations. This product contains Etofenprox, which kills biting adult fleas, deer ticks and mosquitoes your cat may acquire from its surroundings. This product provides relief from flea infestations for up to 1 month by killing adult fleas on your cat or kitten and flea eggs in your home.

[RF2175 CCSO-K is a topically applied [long-lasting] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][\*InfestStop] [to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox][Brand Name], which kills biting adult fleas, deer ticks, and mosquitoes your cat may acquire from its surroundings. A single application of RF2175 CCSO-K will provide egg hatch inhibition for up to 30 days [1 month][4 weeks]. Each package contains enough product for xx monthly applications (xx days of protection [control]). RF2175 CCSO-K provides relief from flea infestations for up to 1 month [4 weeks] by killing adult fleas on your cat or kitten and flea eggs in your home. Adult fleas can live on your cat/kitten while producing vast numbers of eggs, which drop off your cat/kitten and develop in the surrounding environment. RF2175 CCSO-K [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat relief from flea bites at the same time.]

[After application, your cat's skin oils [disperse] carry RF2175 CCSO-K over your cat's body for protection against biting adult fleas and the development of flea eggs. [(product) may stain leather and suede fabrics for (24)(24 to 48) hours after application.] Once adult fleas are evident on your cat, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your cat/kitten's bedding (home sprays, foggers), as well as your yard (yard spray/outdoor fogger) with traditional flea products approved for use on cats/kittens, around the home, or in your yard. RF2175 CCSO-K can be used in conjunction with other [Brand] premise products. As with all flea products, [they are] [RF2175 CCSO-K is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's environment. [BRAND] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of [Brand] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:**

This product works by application directly to the cat's skin, not to the hair. When applying, manually push aside cat's hair to allow direct application to the skin. Do not use on kittens less than 12 weeks old and less than 2.5 lbs. Do not use more than one tube/vial/cartridge per cat and do not apply more than once every month. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product. In multiple cat households, do not allow the cats to groom each other until the product has dried.

**USE ONLY ON CATS AND KITTENS 12 WEEKS OF AGE AND OLDER**

[1 ml [cc] [0.034 fl oz] dose for use on cats and kittens over 2.5 lbs and under 5 lbs. and 12 weeks of age or older.  
1.8 ml [cc] [0.061 fl oz] dose for use on cats and kittens 5 lbs. and over & 12 weeks of age or older (Same size applicators with different fill amounts)]

[APPLICATION METHOD]

1. [Bend at perforation and tear off 1<sup>st</sup> month's applicator.]
2. Hold [applicator] upright [and bend area of plastic at perforation, tear off and discard.] [Hold applicator upright] and snap tip back, away from face and body.
3. Prior to application of the product, gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [applicator] tube on the cat's exposed skin and squeeze out the [entire] contents of the [applicator] tube onto the cat's skin.
4. Do not spread this product by hand over the cat. Do not bathe the cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried. [Although the cat's/kitten's skin and hair oils will [over time] distribute the application over the entire cat/kitten, brushing the cat/kitten 12-24 hours after treatment will help to distribute the material over the skin.]
5. [Repeat application once monthly.][Do not treat more than once per month.]
6. Discard empty applicator as described in STORAGE and DISPOSAL

Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats/kittens with this product rapidly kills fleas and may reduce the incidence of this condition.

Adding a Dose Reminder section to appear as follows on the back panel:

**STORAGE AND DISPOSAL: Pesticide Storage:** Store applicators in a cool, dry (preferably locked) area away from children and animals. **Container Disposal: If empty:** Do not reuse empty applicator [tube]. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**HAZARDS TO HUMANS:** Wash your hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation

**HAZARDS TO ANIMALS:** For External Use on Cats Only. **Do not use on kittens less than 12 weeks old or on kittens weighing less than 2.5 lbs.** Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your cat/kitten with mild soap and rinse with large amounts of water. If signs continue, please call 1-888-987-4110 or consult a veterinarian immediately. Due to the bitter taste of the product, oral exposure could result in salivation. Be careful not to get any product in the cat's mouth during application. For multiple cat households, prevent the cats from grooming each other until the product has dried. If the salivation continues or other clinical signs are noted, please call 1-888-987-4110.

<b>FIRST AID</b>	
If in eyes	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.</li> <li>• Remove contact lenses, if present, after first 5 minutes, then continue rinsing</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-888-987-4110 24 hours/day, 7 days/week .	

**Side Effects:** Monitor your cat after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or Wellmark at 1-888-987-4110. (This box will appear in lower right hand corner of back panel)

**WARRANTY AND CONDITIONS OF SALE:**

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

In case of emergency or for product information, call 1-888-987-4110 [or contact your veterinarian if your cat/kitten is experiencing an adverse event].

To learn more about treating current infestations and preventing future outbreaks, please, visit our website:[ [www.costco.com](http://www.costco.com)]

## OPTIONAL TEXT FOR PACKAGE INSERTS

### OPTIONAL INSERT 1

Dear Valued [Channel Customer],

Thank you for your purchase of [Product Name]. We are delighted to share with you some great tips on using the product for the best results.

- A. For best results, apply the full product in a single spot on the cat's back between the shoulder blades. Applying the material in a single spot is intended to reduce the potential for oral exposure via self-grooming activity. For complete instructions on application, please read the package label.
- B. [Product Name] contains sesame oil as a coat conditioner. The sesame oil helps the product to spread over the cat's fur and acts as a coat conditioner as well. After the product has dried, you may brush through your cat's fur with a cat brush or comb for distribution of the product and coat conditioning sesame oil.
- C. Sensitivities may occur after the use of any topically applied product. A pet's skin is a complex organ, and your pet's skin may be generally sensitive to topical products. If you have questions about best results or if your pet experiences a reaction after application, please call 1-888-987-4110 to talk to a product specialist.
- D. Cats are inclined to self groom, especially after an application of any dermal product. This is a normal activity. For multiple cat households, prevent the cats from grooming each other until the product has dried.
- E. Although self-grooming is a normal activity, it is possible for cats to have oral exposure to [Product Name] as a result of self-grooming. Due to the taste, oral exposure could result in salivation, which can be a cat's normal response to a bad taste. If you are concerned about salivation or other responses by your cat, please call 1-888-987-4110 to talk to a product specialist.
- F. Treatment of fleas on your pet does not address the 95-99% of the flea population that lives in your house and yard. So even after your cat is treated with [Product Name] and adult fleas are killed, flea eggs may continue to hatch in your home for up to two months. For best results, treat your yard and home for fleas with treatments that contain an Insect Growth Regulator, which kills flea eggs. Over time, treatment of your pet and its environment will eliminate fleas from your home.

### OPTIONAL INSERT 2

STOP. Please read this insert/card and the entire instructions before using this product.

[Brand Name] wants the best for your cat/pet, and we are pleased to share with you some great tips for using the product.

- Use [Product Name] only as directed.
- For best results, brush your cat's/pet's coat 24 hours after application.
- Apply away from furniture and carpeting.
- Consult a veterinarian before using if your cat/pet is aged, pregnant, nursing, or taking other medication.
