 Office of Pesticide Programs  
 Registration Division (7505P)  
 1200 Pennsylvania Ave., N.W.  
 Washington, D.C. 20460

EPA Reg. Number:

2724-825

Date of Issuance:

2/23/17

NOTICE OF PESTICIDE:

Registration  
 Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional, Time-Limited  
 Expires: 02/23/2019

Name of Pesticide Product:

RF2180 KC A/T Combo

Name and Address of Registrant (include ZIP Code):

Veronica Semetis Lawless  
 Regulatory Affairs Specialist  
 Wellmark International  
 1501 E Woodfield Rd, Suite 200 West  
 Schaumburg, IL 60173

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Sincerely,

Gene Benbow, Acting Product Manager 4  
 Invertebrate & Vertebrate Branch 1  
 Registration Division (7505P)  
 Office of Pesticide Programs

Date:

2/23/17

EPA Form 8570-6

2. The Agency has found your company to be in compliance with the terms and conditions for the subject product, and is extending the two-year registration restriction. This registration is time-limited and expires 02/23/2019.
3. Please note that the product is still subject to all other previously required conditions of registration. Your company is required to adhere to the spot-on label mitigation, and to submit quarterly enhanced incident reports and quarterly sales information as stated in *the initial registration notice dated 11/08/2012*.
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Please note that the record for this product currently contains the following CSFs:

- Basic CSF dated 05/25/2012

If you have any questions, please contact Tim Ciarlo by phone at 703-347-8082, or via email at [Ciarlo.Timothy@epa.gov](mailto:Ciarlo.Timothy@epa.gov).

## SUBLABEL A – APPLICATOR DEVICE PACKAGE

### 1. DIRECTIONS FOR USE WITH APPLICATOR

#### READ ENTIRE LABEL BEFORE USE

**USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND [OVER 2.5 LBS AND UNDER 5 LBS][5 LBS AND OVER]**

[Specially formulated for cats & kittens][For use on cats only][Do not use on other animals]

#### INTRODUCTION:

A unique, convenient applicator for you.

The new [brand] Applicator is specially designed to make applying flea and tick control easier, more precise -- and neater - than ever before. You simply insert the appropriate [brand] tube [vial][cartridge] for your cat/kitten into the applicator, close it and squeeze to apply. The applicator's ergonomic, contoured shape [design] makes it easy to grip and a built-in fin [tip] [comb] helps to spread [part] the [your] cat's/kitten's hair to allow the liquid to more readily [better] reach [apply] the [to] [your cat's/kitten's] skin. The tube [vial] [cartridge] is sealed inside, so you can be confident that the liquid goes onto your cat/kitten - and not your hand.

[RF2180 A/T Combo] is a topically applied [long-lasting] [flea and tick treatment] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][InfestStop] [to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox], which kills biting adult fleas, deer ticks, and mosquitoes your cat/kitten may acquire from its surroundings. A single application of [RF2180 A/T Combo] will provide flea egg hatch inhibition for up to 30 days [1 month][4 weeks]. Each package contains enough product for xx monthly applications (xx days of protection [control]). [RF2180 A/T Combo] provides relief from flea infestations for up to 1 month [4 weeks][30 days] by killing adult fleas and flea eggs on your cat or kitten. Adult fleas can live on your cat while producing vast numbers of eggs, which drop off your cat and develop in the surrounding environment. Normal insecticides will not kill the flea eggs, but [RF2180 A/T Combo] [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat/kitten relief from flea bites at the same time.

After application, your cat's/kitten's natural skin oils [disperse] carry [RF2180 A/T Combo] over your cat's/kitten's body for protection against biting adult fleas and the development of flea eggs. [(This product) may stain leather and suede fabrics for (24)(24 to 48) hours after application.] Once adult fleas are evident on your cat/kitten, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your cat's bedding (home sprays, foggers), as well as your yard (yard spray/outdoor fogger) with traditional flea products approved for use on pets, around the home, or in your yard. [RF2180 A/T Combo] can be used in conjunction with other [Brand Name] premise products. As with all flea products, they are [RF2180 A/T Combo is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's/kitten's environment. [Brand Name] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of [Brand Name] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label. [If you choose to apply treatment directly to cat without using the applicator device, read and follow the Directions For Use for Direct Application to Cat on this package.]

## USE RESTRICTIONS:

This product contains xx monthly dosages [one monthly dose], each (1 [0.034 fl oz] and 1.8 ml [cc] [0.061 fl oz]). Do not apply more than once every month. Do not use more than one tube/vial/cartridge per cat. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product. [Do not apply to cats weighing less than 2.5 lbs.]

RF2180 A/T COMBO works by application directly to the cat's/kitten's skin, not to the hair. When applying, use applicator device tip to push aside cat's/kitten's hair to allow direct application to the skin. Do not get this product in cat's/kitten's eyes or mouth.

[(Note: Application now assumes one tube[vial] [cartridge] per cat per application)]

The RF2180 A/T COMBO provides a unique applicator device that allows cat/kitten owners to treat their cats/kittens more securely, and dispose of liquid cartridges [tubes][vials]with less mess.

[Note: Each package contains sufficient cartridges/tubes/vials for [X] applications]

[1 ml [cc] [0.034 fl oz] dose for use on cats and kittens over 2.5 lbs and under 5 lbs only .  
1.8 ml [cc] [0.061 fl oz] dose for use on cats and kittens 5 lbs. and over only (Same size applicators with different fill amounts)]

To apply the [RF2180 A/T COMBO] treatment, use one disposable liquid cartridge [tube][vial] [for each application] with the applicator device. Do not use more than one vial per cat.

### 1. OPEN [icon]

Use finger scoop to lift open [color] door [of applicator device].

### 2. LOAD [icon]

[To Load, place tube [cartridge] [vial] white side up [under the [color] tabs] into the applicator] [with [tip end]][front] of tube placed under tab on door] [Tip end of tube [cartridge] must fit under the [U-shaped] [notch][tab] in the [color] [lid] [door]]. [Ensure that tube [cartridge][vial] fits securely in the applicator.]

### 3. CLOSE [icon]

[Gently] close the [color, e.g. green] door [and] the tube will snap open.

### 4. APPLY [icon]

The cat/kitten should be standing for easy application.

[To apply, use tip to part hair and get next to cat's/kitten's skin at the base of the skull. Press [shape e.g. square] [thumb pad][button] on [color] door and squeeze out the entire contents of the applicator [tube] [cartridge] onto the cat's/kitten's skin. ]

-OR-

[To **APPLY** Use front edge of applicator to part fur and get next to cat's/kitten's skin at one spot at the base of the skull. Press [shape e.g. square] [button] on door. Repeat until tube is empty.]

-OR-

[To **APPLY** Use tip to part fur and get next to cat's/kitten's skin. **Press** [shape e.g. square] [button] on door [x times to empty tube] at one spot at the base of the skull.]

Do not spread RF2180 A/T COMBO by hand over the cat/kitten. Do not bathe the cat/kitten within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat/kitten should prevent cats/kittens from grooming each other until solution has dried.

5. DISPOSE [icon]

To dispose of empty tube, open [color, e.g. green] door and drop [empty] tube into trash or offer for recycling if available. Close applicator device door and [return applicator to package until next use][store in original package.]

6. RETREAT AFTER 30 DAYS

Do not reapply product for 30 days. Do not treat more than once per month.

[Note: Each package contains sufficient cartridges/tubes/vials for [X] applications]

RF2180 A/T COMBO is most effective when used as part of a total flea and tick management program. Use other [Brand Name] products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.[The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with RF2180 A/T COMBO rapidly kills fleas and may reduce the incidence of this condition.](Optional marketing text for subregistrant)

[TREATMENT SCHEDULE

Dosage: Use only 1 applicator every 30 days per cat/kitten

Cat's/Kitten's Name	First Treatment Date	Second Treatment Date (30 Days From 1 <sup>st</sup> )	Third Treatment Date (30 Days From 2nd)

NOTES: \_\_\_\_\_

REMINDER: I purchased [Brand Name] from \_\_\_\_\_]

**STORAGE AND DISPOSAL:** **Storage:** Store in a cool, dry area away from children and animals. Do not store unused applicators [tubes] separately from their packaging. **Liquid Cartridge [vial] [tube] Disposal: If empty:** Do not reuse empty cartridge [vial] [tube]. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**HAZARDS TO HUMANS:** Repeated exposure to etofenprox can cause skin irritation.

**HAZARDS TO DOMESTIC ANIMALS:** For External Use on Cats Only. **Do not use on kittens weighing less than 2.5 [5] pounds. Do not use on kittens less than 12 weeks old.** Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Due to the bitter taste of the product, oral exposure could result in salivation. Be careful not to get any product in the cat's mouth during application. For multiple cat households, prevent the cats from grooming each other until the product has dried. If an oral exposure occurs, offer the cat a taste treat, such as tuna, milk, or any other food items your cat enjoys. If the problem continues or other clinical signs are noted, please call 1-800-brand phone number.

FIRST AID	
If in eyes:	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.</li> <li>• Remove contact lenses, if present, after first 5 minutes, then continue rinsing.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-brand phone number for emergency medical treatment information.

**WARRANTY AND CONDITIONS OF SALE:**

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

In case of emergency or for product information, call 1-800-xxx-xxxx or contact your veterinarian if your cat/kitten is experiencing an adverse event.

## 2. DIRECTIONS FOR USE FOR DIRECT APPLICATION TO CAT

### READ ENTIRE LABEL BEFORE USE

**USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND [OVER 2.5 LBS AND UNDER 5 LBS][5 LBS AND OVER]**

[Specially formulated for cats [& kittens]][For use on cats only][Do not use on other animals]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

### USE RESTRICTIONS:

This product contains xx monthly dosages [one monthly dose], each (1 [0.034 fl oz] and 1.8 ml [cc] [0.061 fl oz]). Do not apply more than once every month. Do not use more than one tube/vial/cartridge per cat. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product. [Do not apply to cats weighing less than 2.5 lbs.]

RF2180 A/T COMBO works by application directly to the cat's/kitten's skin, not to the hair. Do not get this product in cat's/kitten's eyes or mouth. [(Note: Application now assumes one tube[vial] [cartridge] per cat per application)]

### [APPLICATION METHOD]

1. **OPEN** [icon]: [Remove one applicator tube from the package and hold in an upright position (pointed away from your face).] [Bend at perforation and tear off 1<sup>st</sup> month's applicator.] [Hold applicator upright] and snap tip back, away from face and body.
2. **APPLY** [icon]: The cat/kitten should be standing for easy application. Use tip of [vial][tube] [cartridge] prior to application of the product, to gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [vial] tube [cartridge] on the cat's exposed skin and squeeze out the [entire] contents of the [vial] tube [cartridge] onto the cat's skin.

Do not spread RF2180 A/T COMBO by hand over the cat/kitten. Do not bathe cat within the first 24 hours after Spot On [squeeze on] has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried.

3. **DISPOSE** [icon]: To dispose of empty [tube][vial][cartridge], drop [empty] tube [vial][cartridge] into trash or offer for recycling if available.
4. **RETREAT:** Repeat application once monthly.

[Note: Each package contains sufficient cartridges/tubes/vials for [X] applications] [1 ml [cc] [0.034 fl oz] dose for use on cats and kittens over 2.5 lbs and under 5 lbs only . 1.8 ml [cc] [0.061 fl oz] dose for use on cats and kittens 5 lbs. and over only (Same size applicators with different fill amounts)]

RF2180 A/T COMBO is most effective when used as part of a total flea and tick management program. Use other [Brand Name] products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.[The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with RF2180 A/T COMBO rapidly kills fleas and may reduce the incidence of this condition.](Optional marketing text for subregistrant)

[Specially formulated for cats [& kittens]][For use on cats only][Do not use on other animals]

**INTRODUCTION:**

The new [brand] Applicator is specially designed to make applying flea and tick control easier, more precise -- and neater - than ever before. You simply insert the appropriate [brand] tube [vial][cartridge] for your cat/kitten into the applicator, close it and squeeze to apply. The applicator's ergonomic, contoured shape [design] makes it easy to grip and a built-in fin [tip] [comb] helps to spread [part] the [your] cat's/kitten's hair to allow the liquid to more readily [better] reach [apply] the [to] [your cat's/kitten's] skin. The tube [vial] [cartridge] is sealed inside, so you can be confident that the liquid goes onto your cat/kitten - and not your hand.

[RF2180 A/T Combo] is a topically applied [long-lasting] [flea and tick treatment] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][InfestStop][to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox], which kills biting adult fleas, deer ticks, and mosquitoes your cat/kitten may acquire from its surroundings. A single application of [RF2180 A/T Combo] will provide flea egg hatch inhibition for up to 30 days [1 month][4 weeks]. Each package contains enough product for xx monthly applications (xx days of protection [control]). [RF2180 A/T Combo] provides relief from flea infestations for up to 1 month [4 weeks][30 days] by killing adult fleas and flea eggs on your cat or kitten. Adult fleas can live on your cat while producing vast numbers of eggs, which drop off your cat and develop in the surrounding environment. Normal insecticides will not kill the flea eggs, but [RF2180 A/T Combo] [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat/kitten relief from flea bites at the same time.

After application, your cat's/kitten's natural skin oils [disperse] carry [RF2180 A/T Combo] over your cat's/kitten's body for protection against biting adult fleas and the development of flea eggs. [(This product) may stain leather and suede fabrics for (24)(24 to 48) hours after application.] Once adult fleas are evident on your cat/kitten, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your cat's bedding (home sprays, foggers), as well as your yard (yard spray/outdoor fogger) with traditional flea products approved for use on pets, around the home, or in your yard. [RF2180 A/T Combo] can be used in conjunction with other [Brand Name] premise products. As with all flea products, they are [RF2180 A/T Combo is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's/kitten's environment. [Brand Name] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of [Brand Name] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

[Note: full Directions for Use to be used if space allows]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

## 1. DIRECTIONS FOR USE WITH APPLICATOR

[To apply the RF2180 A/T Combo treatment with the {Brand Name} applicator, use one disposable liquid [cartridge][tube][vial][for each application] with the applicator device.]

[Remove one refill [cartridge][tube][vial] from the package and insert into opened [Brand Name] applicator device. Make application according to label directions supplied with the [Brand Name] applicator device.] If you need directions for application, please call 1-800-(brand phone number).

[If you choose to apply directly to cat without using the applicator device, read and follow the Directions For Use for Direct Application to Cat on this package.]

## 2. DIRECTIONS FOR USE FOR DIRECT APPLICATION TO CAT

### READ ENTIRE LABEL BEFORE USE

**USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND [OVER 2.5 LBS AND UNDER 5 LBS][5 LBS AND OVER]**
