

U.S. ENVIRONMENTAL PROTECTION
AGENCY

Office of Pesticide Programs
Registration Division (7505C)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

2724-839

Date of Issuance:

July 11, 2014

Term of Issuance: Conditional

Name of Pesticide Product:

RF2174 Fly Bait Station

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Wellmark International
1501 East Woodfield Road, Suite 200W
Shaumburg, Illinois 60173

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data. You must comply with DCI ID# GDCI 044312-1147 issued on 3/1/2013. If you have questions about the Generic DCI issued, you may contact Steven Snyderman from the Pesticide Re-evaluation Division.
2. Submit the following data: One year storage stability (830.6317) and corrosion characteristics (830.6320) studies. These studies can be run concurrently. Observation must be made at 0, 3, 6, 9, and 12 months period and the results must be submitted to the Agency upon completion. These studies must be submitted within 18 months from the date of this letter.
3. Make the following label change:

Change the EPA Registration Number to 2724-839.

Signature of Approving Official:

Meredith F. Laws, Chief
Insecticide Rodenticide Branch

Date:

July 11, 2014

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Submit two copies of the revised final printed label before you release the product for shipment. Your release for shipment of the product constitutes acceptance of these conditions.

Please note that the record for this product contains the following, approved CSF:

- Basic Formulation dated May 22, 2014

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

Please be aware that should you wish to add/retain a reference to the company's website on your label, then the website becomes labeling under the Federal Insecticide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(A)(5) lists examples of statements EPA may consider false or misleading. **In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process.** Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of the label is enclosed for your records. If you have any questions, contact Rita Kumar at (703) 308-8291, or kumar.rita@epa.gov.

Kills house and lesser house flies
Knocks down house and lesser house flies in minutes
Quick knockdown*
Easy to use
Compatible with IPM programs

*in minutes

ACTIVE INGREDIENT:

Dinotefuran [N-methyl-N'-nitro"-((tetrahydro-3-furanyl) methyl) guanidine]..... 1%

OTHER INGREDIENTS:99%

Total.....100%

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: X stations [bait strips] [twin pack]

EPA Reg No. 2724-~~XXX~~

EPA Est. No. 39578-TX-1

PRECAUCION AL USUARIO:

Si usted no lee ingles, no use este producto hasta que la etiqueta haya sido explicada ampliamente.

The RF2174 [Name Brand] Fly Bait Station's [strip's] active ingredient is contained in a [yellow] sugar-based matrix that flies find irresistible. Shortly after feeding on the matrix, the flies will begin to die. The RF2174 [Name Brand] Fly Bait Station's [strip's] triple action fly attractant attracts flies to the product [strip] [station] area. Ventilation will not diminish the effectiveness of the RF2174 [Name Brand] Fly Bait Station [strip] since it works by fly feeding action.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

USE RESTRICTIONS:

Do not apply in areas accessible by animals, children and pets.
Do not place where rain or daily activity will get stations [strips] wet.
DO NOT remove the attractant tube or empty its contents. Note: The attractant has a strong odor.

WHERE TO APPLY

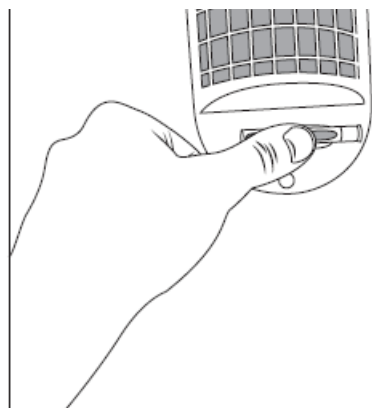

Use RF2174 [Brand Name] Fly Bait Station around: garbage chutes, dumpsters, loading docks, waste containers, grease pits, rest areas, outdoor rest room facilities, in and around stables, dairy barns, milking parlors, loafing sheds, kennels, poultry houses, aviaries, swine houses, feedlots, refuse and recycling facilities, around commercial food-handling facilities, restaurants, bars, groceries, stores, and other facilities where house flies and lesser house flies are a nuisance.

For optimum results, place the station within four feet of the ground where flies generally forage for food. Bait stations placed in rafters or areas higher than 4 feet will not be as effective. For longest residual activity, protect station from direct sunlight and excessive moisture.

HOW TO APPLY

Remove the RF2174 Fly Bait Station [strip] from the protective pouch. Handle by grasping curved ends of station [strip]. To activate attractant, simply squeeze/snap the attractant tube until a snapping sound is heard.

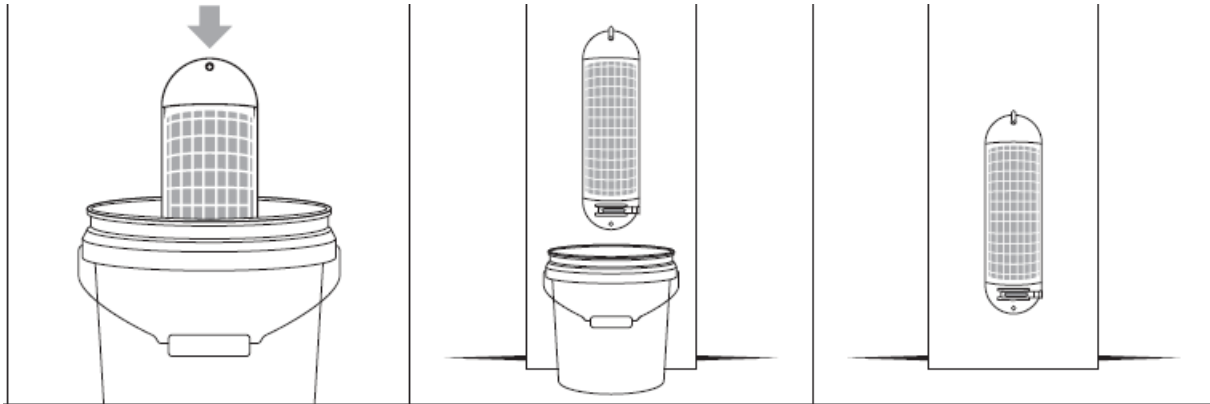

(Optional graphics)

Apply the station [strip] one of two ways:

1. Affix on a stationary object low to the ground. (Do not hang from one end in breezy area as flies will not land on moving objects.) The station may be placed at any angle but is most effective when placed on a flat surface.
2. To contain killed flies, RF2174 [Name Brand] Fly Bait Station may be leaned upright in a bucket or box partially filled with sand, a brick or other weight to keep it from being blown over.

(Optional graphics)

USE RATE

In enclosed structures or sites with low to moderate house fly populations, use 1 station [strip] per 300 ft². In open structures or sites with high house fly populations, use 1 station [strip] per 100-150 ft².

Replace when effectiveness diminishes. Note: When the yellow coloring of the strip [insert] is gone [mostly gone], the station [strip] will not be effective.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Store in a cool, dry place away from children and animals. Keep strips in original unopened package until ready to use. Do not store unused strips in anything but original package. **PESTICIDE DISPOSAL:** To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry.) **CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Do not reuse strips. Offer for recycling if available or dispose of empty pouch and box in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND CONDITIONS OF SALE: To the extent consistent with applicable law, Wellmark International warrants this product in its unopened package conforms to the chemical description on the label and is reasonably fit for the purposes set forth on the label when used according to directions under normal use conditions as specified on this label. To the extent consistent with applicable law, there are no other warranties, expressed or implied, concerning the use of this product other than as indicated on the label. This warranty does not extend to the handling or use of this product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to seller, and buyer assumes all risk of any such use.
