Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Minor Label Revisions
Product Name: RF2174 FLY BAIT STATION
Admin Number: 2724-839
EPA Receipt Date: 01/28/2026
Action Case Number: 00682997

Dear Noelle Sanfilippo:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Melissa Bridges via email at bridges.melissa@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Scott Campbell (for)".

SUBLABEL A: Fly Bait Strip - Clamshell
[] Indicates optional marketing text

RF2174 FLY BAIT STATION

Kills house and lesser house flies

Knocks down house and lesser house flies in minutes

Quick knockdown*

Easy to use

Place within 4 ft of the ground or lean upright in a bucket on the ground

No sticky mess

One strip for 300 sq ft

Compatible with IPM programs

Twin pack

How to apply: 1. Affix on a stationary object low to the ground. To activate attractant, simply squeeze/snap the attractant tube until a snapping sound is heard. Bait strips placed in rafters or areas higher than 4 feet will not be as effective.

*in minutes

OPTIONAL GRAPHICS

NOTIFICATION

2724-839

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

02/12/2026

(Optional Icon/Graphic)

ACTIVE INGREDIENT:

Dinotefuran..... 1%

OTHER INGREDIENTS:99%

Total 100%

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: X stations [bait strips] [twin pack]

EPA Reg No. 2724-839

EPA Est. No.

PRECAUCION AL USUARIO:

Si usted no lee ingles, no use este producto hasta que la etiqueta haya sido explicada ampliamente.

The RF2174 [Name Brand] Fly Bait Station's [strip's] active ingredient is contained in a [yellow] sugar-based matrix that flies find irresistible. Shortly after feeding on the matrix, the flies will begin to die. The RF2174 [Name Brand] Fly Bait Station's [strip's] triple action fly attractant attracts flies to the product [strip] [station] area. Ventilation will not diminish the effectiveness of the RF2174 [Name Brand] Fly Bait Station [strip] since it works by fly feeding action.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

USE RESTRICTIONS:

Do not apply in areas accessible by animals, children and pets.

Do not place where rain or daily activity will get stations [strips] wet.

DO NOT remove the attractant tube or empty its contents. Note: The attractant has a strong odor.

WHERE TO APPLY

Use RF2174 [Brand Name] Fly Bait Station around: garbage chutes, dumpsters, loading docks, waste containers, grease pits, rest areas, outdoor rest room facilities, in and around stables, dairy barns, milking parlors, loafing sheds, kennels, poultry houses, aviaries, swine houses, feedlots, refuse and recycling facilities, around commercial food-handling facilities, restaurants, bars, groceries, stores, and other facilities where house flies and lesser house flies are a nuisance.

For optimum results, place the station [strip] within four feet of the ground where flies generally forage for food. Bait stations [strips] placed in rafters or areas higher than 4 feet will not be as effective. For longest residual activity, protect station [strip] from direct sunlight and excessive moisture.

HOW TO APPLY

Remove the RF2174 Fly Bait Station [strip] from the protective pouch. Handle by grasping curved ends of station [strip]. To activate attractant, simply squeeze/snap the attractant tube until a snapping sound is heard.

(Optional graphics)

Apply the station [strip] one of two ways:

1. Affix on a stationary object low to the ground. (Do not hang from one end in breezy area as flies will not land on moving objects.) The station [strip] may be placed at any angle but is most effective when placed on a flat surface.
2. To contain killed flies, RF2174 [Name Brand] Fly Bait Station may be leaned upright in a bucket or box partially filled with sand, a brick or other weight to keep it from being blown over.

(Optional graphics)

USE RATE

In enclosed structures or sites with low to moderate house fly populations, use 1 station [strip] per 300 ft². In open structures or sites with high house fly populations, use 1 station [strip] per 100-150 ft².

Replace when effectiveness diminishes. Note: When the yellow coloring of the strip [insert] is gone [mostly gone], the station [strip] will not be effective.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place away from children and animals. Keep strips in original unopened package until ready to use. Do not store unused strips in anything but original package. **PESTICIDE DISPOSAL:** To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry.) **CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Do not reuse strips. Offer for recycling if available or dispose of empty pouch and box in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND CONDITIONS OF SALE: To the extent consistent with applicable law, Wellmark International warrants this product in its unopened package conforms to the chemical description on the label and is reasonably fit for the purposes set forth on the label when used according to directions under normal use conditions as specified on this label. To the extent consistent with applicable law, there are no other warranties, expressed or implied, concerning the use of this product other than as indicated on the label. This warranty does not extend to the handling or use of this product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to seller, and buyer assumes all risk of any such use.

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: X [stations][sheets][strips][panels] [X pack] {Will have total and individual net contents}

EPA Reg No. 2724-839

EPA Est. No.

PRECAUCION AL USUARIO:

Si usted no lee ingles, no use este producto hasta que la etiqueta haya sido explicada ampliamente.

The RF2174 Fly Bait Station's [Name Brand] [station's][strip's][panel's][sheet's] active ingredient is contained in a [yellow] sugar-based matrix that flies find irresistible. Shortly after feeding on the matrix, the flies will begin to die. Ventilation will not diminish the effectiveness of the RF2174 Fly Bait Station [Name Brand] [station][strip][sheet][panel] since it works by fly feeding action.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

USE RESTRICTIONS:

Do not apply in areas accessible by animals, children and pets.

Do not place where rain or daily activity will get the [station][strips][panels][sheets] wet.

WHERE TO APPLY

Use RF2174 Fly Bait Station [Brand Name] around: garbage chutes, dumpsters, loading docks, waste containers, grease pits, rest areas, outdoor restroom facilities, in and around stables, dairy barns, milking parlors, loafing sheds, kennels, poultry houses, aviaries, swine houses, feedlots, refuse and recycling facilities, around commercial food-handling facilities, restaurants, bars, groceries, stores, and other facilities where house flies and lesser house flies are a nuisance.

For optimum results, place the [station] [strip][sheet][panel] within four feet of the ground where flies generally forage for food. Bait [stations] [strips][panels][sheets] placed in rafters or areas higher than 4 feet will not be as effective. For longest residual activity, protect [station] [strip][sheet][panel] from direct sunlight and excessive moisture.

HOW TO APPLY

Open packaging containing RF2174 Fly Bait Station [Brand name]. Remove desired number of [stations][strips][panels][sheets] from the package. Handle by the ends of RF2174 Fly Bait Station [Brand name] and apply to the desired areas. Affix on a stationary object low to the ground. [Do not hang from one end in breezy area as flies will not land on moving objects.] The [station][strip][sheet][panel] may be placed at any angle but yellow side must be facing out, and [station][strip][sheet][panel] is most effective when placed on a flat surface, including walls or poles. [Station][Strip][Sheet][Panel] may be attached to surfaces using adhesives or fasteners such as nails, clips, or staples. If adhesive tape is used, cover as little area of the yellow sugar matrix as reasonably possible, to ensure maximum insecticide availability to flies. Close [pouch][bag][package][container] after removal of desired quantity of [stations][strips][panels][sheets] and store remainder in a cool, dry place away from children and animals. Wash hands after applying product.

USE RATE

In enclosed structures or sites with low to moderate house fly populations, use 1 [station][strip][sheet][panel] per 300 ft². In open structures or sites with high house fly populations, use 1 [station][strip][sheet][panel] per 100-150 ft². Replace when effectiveness diminishes. Note: When the yellow coloring of the [station][strip][panel][sheet] is gone [mostly gone], the [station][strip][sheet][panel] will not be as effective.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Store in a cool, dry place away from children and animals. Keep [stations][strips][sheets][panels] in original unopened package until ready to use. Do not store unused [stations][strips][panels][sheets] in anything but original package. **PESTICIDE DISPOSAL:** To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry.) **CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Do not reuse [stations][strips][sheets][panels]. Offer for recycling if available or dispose of empty [container][pouch][bag][and box] in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND CONDITIONS OF SALE: To the extent consistent with applicable law, Wellmark International warrants this product in its unopened package conforms to the chemical description on the label and is reasonably fit for the purposes set forth on the label when used according to directions under normal use conditions as specified on this label. To the extent consistent with applicable law, there are no other warranties, expressed or implied, concerning the use of this product other than as indicated on the label. This warranty does not extend to the handling or use of this product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to seller, and buyer assumes all risk of any such use.

NET CONTENTS 0.5 to 12 FL. OZ.

DIRECTIONS FOR USE(:)

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Read and follow all directions and precautions on this product label.** Hold container 4 to 6 inches from skin or clothing and spray. Do not apply over cuts, wounds, irritated or sunburned skin. Do not spray in enclosed areas. Use just enough repellent to cover exposed skin and/or clothing. Avoid over-application of this product. Frequent reapplication and saturation are unnecessary. Do not allow children to handle this product. Do not apply to children's hands. When using on children, apply to your own hands and then put it on the child. After returning indoors, wash treated skin with soap and water. Spread evenly with hands to moisten all exposed skin.

TO APPLY TO FACE: Spray palm of hand first and then apply sparingly and avoid eyes. Do not spray directly onto face. Do not apply near eyes and mouth. Apply sparingly around ears.

WORKS ON OUTER SURFACES OF CLOTHING: Do not use under clothing. Spray shirts, pants, socks, and hats. For ticks and chiggers also spray cuffs, socks and around openings in outer clothing. Will not damage cotton, wool or nylon. Do not apply on or near: acetate, rayon, spandex or other synthetics {other than nylon}, furniture, plastics, watch crystals, leather and painted or varnished surfaces including automobiles.

STORAGE AND DISPOSAL(:)

PESTICIDE STORAGE: Store away from heat or flame in an area inaccessible to children.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Before disposing, empty the container by using the product according to the label. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency or 1-800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS(:)

HAZARDS TO HUMANS: **WARNING** - Causes substantial but temporary eye injury. Do not get in eyes. Harmful if swallowed. Use of this product may cause skin reactions in rare cases. Wash treated clothing before wearing it again. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

[Note to reviewer: Boxed format or bullets may be used in First aid section if label space permits]

FIRST AID(:)

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If you suspect a reaction to this product, discontinue use, wash treated skin, and call your local poison control center.

PHYSICAL & CHEMICAL HAZARDS - Combustible: Do not use or store near heat or open flame. Keep treated surfaces away from fire or flame until dry.
