

DIRECTIONS FOR SPRAYING

Spraying equipment should evenly distribute the spray material over the plants. The amount of water used per acre is not particularly important. Successful results have been obtained with as little as 2 gallons per acre.

RATE OF APPLICATION

For the control of weeds in wheat, oats, barley, use 1/4 to 1/2 pts. of 2,4-D Air Ester 99% per acre. Do not spray winter wheat or barley in the fall. Spray in the spring after the wheat or barley has tillered and as near the 5-leaf stage as possible, but before it is in the boot. Do not forage or graze treated grain fields within 2 weeks after treatment with 2,4-D.

For the control of weeds in oats, apply 2,4-D near early boot stage. Oats are especially sensitive to 2,4-D in the early growth stage. Do not forage or graze treated grain fields within 2 weeks after treatment with 2,4-D. Do not apply in the seedling to milk stage.

SAGEBRUSH: For the control of sagebrush in pastures, use 1 pint of Air Ester per acre. Do not spray near susceptible crops as they may be damaged by drifting fumes. Spray sagebrush during early growing stage in early summer. Minimum gallons per acre for aerial application is 2-5 gallons per acre.

Do not graze treated areas by dairy animals within 7 days after treatment.

Do not apply to newly seeded pastures.

This product is toxic to fish and/or wildlife. Keep out of lakes, streams or ponds. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of waters.

WARRANTY AND LIMITATION OF DAMAGES

SELLER warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and BUYER assumes the risk of any use contrary to such directions. SELLER makes no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of SELLER is authorized to do so except in writing with a specific reference to this warranty. In no event shall SELLER's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
