

## GENERAL INFORMATION

INSTEMUL DA 120 is a specially designed herbicide formulation for use in the STULL BIFLUID SYSTEM. It produces a water-in-oil emulsion in storage tank when mixed with water in bifluid spray equipment. The active ingredient is an oil-soluble amine salt of 2,4-D which is not hazardous when vaporized.

INSTEMUL DA 120 is intended for use in control of broadleaf weeds and shrubs in crop areas such as industrial rights-of-way, fence rows and orchards. It is also used for weed control in pastures and areas of the control of broadleaf weeds in rice. Among the types of plants controlled are the following:

Alfalfa weed	Henbit	Red clover
Bloodweed	Honeysuckle	Ragweed
Blackberry	Horseweed	Ragwort
Blueweed	Indigo	Shepherd's pen
Chickweed	Mexican weed	Spillwort
Clover	M. weed	St. John's wort
Cottonwood	Peppercorn	Trifolium
Cupressus	Ragweed	Trifolium
Daisy	Rumex	Verbena
Day lily	Rustic clover	White clover
Delphinium	Rumex	Wild carrot
		Wild radish

INSTEMUL DA 120 is a contact herbicide which kills by suffocating, spreading and burning agents and the water in the emulsion formed during spraying penetrates the plant surface. For more information, see the label.

### WARNING

Do not inhale dust or spray. Do not get on skin and hair. Do not get in eyes. Do not get on face. Do not get on clothing. Do not get on children. Do not get on animals. Do not get on food. Do not get on feed. Do not get on drinking water. Do not get on crops. Do not get on fruit. Do not get on seed. Do not get on plants. Do not get on animals. Do not get on food. Do not get on feed. Do not get on drinking water. Do not get on crops. Do not get on fruit. Do not get on seed. Do not get on plants.

DO NOT apply INSTEMUL DA 120 to plants which are sensitive to 2,4-D such as alfalfa, clover, timothy, bluegrass, fruit trees, ornamentals, shrubs, and other plants. Do not apply to plants which are sensitive to 2,4-D such as alfalfa, clover, timothy, bluegrass, fruit trees, ornamentals, shrubs, and other plants.

DO NOT contaminate water supply with herbicide. Do not contaminate water supply with herbicide. Do not contaminate water supply with herbicide. Do not contaminate water supply with herbicide.

Do not apply to plants which are sensitive to 2,4-D such as alfalfa, clover, timothy, bluegrass, fruit trees, ornamentals, shrubs, and other plants. Do not apply to plants which are sensitive to 2,4-D such as alfalfa, clover, timothy, bluegrass, fruit trees, ornamentals, shrubs, and other plants.

### CAUTION

Do not apply to plants which are sensitive to 2,4-D such as alfalfa, clover, timothy, bluegrass, fruit trees, ornamentals, shrubs, and other plants. Do not apply to plants which are sensitive to 2,4-D such as alfalfa, clover, timothy, bluegrass, fruit trees, ornamentals, shrubs, and other plants.
