CARBARYL 50-W INSECTICIDE

ACTIVE INGREDIENT:
Carbaryl (1-naphthyl methylcarbamate) 50%

ACETATE 50% TOTAL 100%

CAUTION: KEEP OUT OF THE REACH OF CHILDREN.

HARMFUL IF INHALED OR SWALLOWED. AVOID BREATHING OF DUST OR SPRAY. DO NOT TAKE INTERNALLY. AVOID PROLONGED OR REPEATED CONTACT WITH SKIN. WEAR PROTECTIVE CLOTHING. CHANGE TO CLEAN CLOTHING DAILY. WASH HANDS AND FACE BEFORE EATING. WASH THOROUGHLY AFTER HANDLING.

IN CASE OF CONTACT, FLUSH WITH PLENTY OF WATER. FOR EYES - GET MEDICAL ATTENTION.

NOTE TO PHYSICIAN: CARBARYL IS A MODERATE, REVERSIBLE, CHOLINESTERASE INHIBITOR. ANTIDOTE IS ATROPINE.

DO NOT REUSE EMPTY CONTAINER. DESTROY EMPTY CONTAINER BY PERFORATING OR CRUSHING AND BURYING IN A SAFE PLACE.

DO NOT CONTAMINATE WATER BY CLEANING OF EQUIPMENT OR DISPOSAL OF WASTES.

KEEP AWAY FROM DOMESTIC ANIMALS AND FOODSTUFFS.

GENERAL INFORMATION

COMPATIBILITY
1. CARBARYL 50-W has been effectively used without plant injury with common insecticides and fungicides except (a) where mixtures have contained a number of pesticides, or (b) under adverse conditions such as high humidity, drought, improper fertilization, etc.

2. CARBARYL 50-W forms a compatible suspension alone and when combined with many other pesticides. Incompatible mixtures under unfavorable conditions may injure crops or reduce control. Compatibility can be affected by water in your locality, various surfactants and other formulation ingredients. Do not apply if partially incompatible.

3. Do not mix CARBARYL 50-W with nutrients or adjuvants or with any other pesticide unless your experience indicates that the mixture is safe and effective. If uncertain, prepare a small amount of the mixture and test on a single representative portion of the crop.

4. Compatible with petroleum oil as used on cotton. Do not use with summer oil on deciduous fruits.

5. Unstable under highly alkaline conditions. Not effective if used with alkaline materials like Bordeaux, lime sulfur and seaweed lime spreaders.
