Happy Jack[®]
 ...Your Dog would

Happy Jack products are the choice of experienced dog breeders. They know that we know what's good for a dog.

**DIRECTIONS
 DOGS & HORSES**

For sarcoptic mange apply once daily for several days or less. Work well into the skin with slow firm finger massage. On areas that respond slowly try twice daily.

CAUTION

Harmful if swallowed. Do not use on cats. Do not reuse container. Destroy when empty.

IMPORTANT

For best results, disinfect the animal's environment and accompany this treatment with a periodic check of infection and a sound nutritional program. If dermatitis persists, consult a veterinarian.

SHAKE WELL before using. If stiff sediment is found, turn bottle upside down overnight.
