Subject: Amended Reregistration Label For: MGK 326
EPA Registration No. 2781-9

Dear Mr. Weatherston:

The Agency in accordance with the Federal Fungicide and Rodenticide Act as Amended (FIFRA) has completed reviewing all of the information submitted with your application to support the reregistration of the aforementioned product in connection the **MGK 326 RED**, and have concluded that your submission is acceptable.

The Agency is in the process of developing and improving the current Efficacy Assessment Guidelines for repellent products. The Agency intends to defer the determination of any related efficacy data requirements supporting the claims that may appear on this label until these Efficacy Assessment Guidelines are complete. When the guidelines are finalized, the Agency expects to issue a Data Call-In to address the revised guidelines to all registrants with registrations for personal repellent products that have not previously submitted efficacy data sufficiently consistent with the revised guidelines.

NOTE: This product is not being re-registered under FIFRA Sec. 4(g) at this time.

Happy Jack Inc. should note that a notice of availability of EPA's reregistration eligibility decision (RED) documents for products containing:

- Pyrethrins was published in the Federal Register on July 26, 2006 (Volume 71, Number 143, Pages 42387-42389).
- Piperonyl butoxide was published in the Federal Register on July 26, 2006 (Volume 71, Number 143, Pages 42385-42386).

As a result of these REDs, additional data and/or labeling changes may be required for products containing pyrethrins and/or piperonyl butoxide.

You must submit two copies of the final printed label revised in accordance with the comments listed above before the product is released for shipment under this label. If you have any questions, you may contact Samantha Hulkower at (703)-603-0683 or Hulkower.Samantha@epa.gov.
