Mr. Jerry Ott
Happy Jack, Inc.
P. O. Box 473
Snow Hill, N.C. 28580

Dear Mr. Ott

SUBJECT: Flea, Tick & Mange Collar for Dogs
EPA Reg. No. 2781-20
Your Application 11-12-84

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable, provided that you:

1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. Revise the Use Directions to read "two (2) months" instead of "three (3) months" as an aid in killing ticks.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely,

Jay S. Ellenberger
Product Manager (12)
Insecticide-Rodenticide Branch
Registration Division (TS-767C)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Place collar around dog's neck, adjust to proper fit. Cut off and dispose of the excess length. The collar must be worn loosely so that two fingers can be placed between collar and dog's neck. If collar is worn too tightly, it may produce neck irritation. Remove collar at first sign of irritation or adverse reaction.

Activity against fleas starts within 24 hours. Once the activity starts, this product will provide effective flea kill for eleven (11) months. Ticks are harder to kill. Activity against ticks occurs within 3 days. Once the activity starts, this product will provide effective kill for seven (7) months plus aiding in kill for an additional ~~three (3)~~ ⁷ months. Fleas and ticks present in the animal's environment that may reappear on the dog will be killed and controlled within 24 hours. This collar also aids in the prevention and control of mange.

Replace collar when effectiveness diminishes. Collar's effectiveness is not diminished by normal wetting such as rainfall or bathing. If collar becomes excessively dirty, wipe with a damp cloth.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

CAUTION: Do not open protective pouch until ready to use. This collar is intended for use as an insecticide generator. Not intended for use on humans. Do not allow children to play with this collar. Wash hands thoroughly with soap and water after handling collar.

This collar is a cholinesterase inhibitor. Some breeds or individuals may be sensitive. Remove collar if symptoms of cholinesterase inhibition (which may include salivating, vomiting and diarrhea) occur.

- 1) Do not use on sick, extremely old or debilitated dogs.
- 2) Do not use on dogs under 3 months of age.
- 3) Do not use other pesticides or drugs on dogs while collar is worn.

Note To Physician: Atropine is antidotal only if symptoms of cholinesterase inhibition are present.

Statement of Practical Treatment

If On Skin: Wash thoroughly with soap and water.

If In Eyes: Flush with plenty of water.

DISPOSAL

Do Not reuse pouch or box. Wrap pouch or box and put in trash collection. When discarding used collar, wrap and place in trash.
