DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Place collar around dog's neck, adjust to proper fit. Cut off and dispose of the excess length. The collar must be worn continuously with two fingers can be placed between collar and dog's neck. Collar will work only if tightly stretched around neck, resting on firm surface at first sign of irritation or a severe reaction.

As the majority of flea infestations start within 24 hours after the activity starts, this product will provide effective tick kill for seven (7) months. Ticks are harder to kill. Activity against ticks is cut off within 3 days since the activity starts. This product will provide effective tick kill for seven (7) months, plus a 24-hour tick kill for an additional two (2) months. Fleas and ticks present in the animal's environment that may reappear on the dog will be killed and controlled within 24 hours. This collar protects in the presence and absence of fleas.

Replace collar when effectiveness diminishes. Collar's effectiveness is not diminished by normal wetting such as rainfall or bathing. If collar becomes excessively dirty, wipe with a damp cloth.
