

MAR 17 1997

Mr. Jerry E. Ott  
Happy Jack, Inc.  
P.O. Box 475  
Snow Hill, North Carolina 28580

Subject: Revised Labeling--Per PR Notice 96-6  
Happy Jack Streaker  
EPA Registration Number 2781-34  
Your Application Dated February 10, 1997

Dear Mr. Ott:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, is acceptable provided that you make the labeling changes indicated below before you release the product for shipment bearing the amended labeling:

1. In the directions for use section, after the sentence "One treatment will kill fleas for 14 days," add the sentence "Do not reapply product for 14 days."
2. In the next paragraph, in the sentence "Do not use this product on animals simultaneously or within 14 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides or chemicals," delete "14" and substitute "30."
3. In the Precautionary Statements section, delete the sentence "If reaction occurs, wash dog with soap and water" and substitute "Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately."

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

151

Dennis H. Edwards, Jr.  
Product Manager (19)  
Insecticide-Rodenticide Branch  
Registration Division (7505C)

Enclosure

**DIRECTIONS**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**SHAKE BEFORE USING**

Remove dauber from bottle with a slow twisting motion and smear one streak down dog's back. Redip the dauber and apply one streak on the chest. Again redip and smear one streak around dog's neck. Apply just enough Streaker to wet the hair. One treatment will kill fleas for 14 days. To kill ticks, apply directly to each tick. To kill mange mites, apply to the affected area.

Do not use this product on animals simultaneously or within 14 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides or chemicals.

For information call 1-800-328-5225.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION**

Not for human use. Harmful if swallowed. Avoid eye contact. In case of eye contact, flush eyes immediately with plenty of water. Get medical attention if irritation persists. Avoid excessive contact with skin or clothing. Wash hands thoroughly with soap and warm water after treating animals. Do not use on dogs under 12 weeks of age. Do not use on debilitated, medicated, aged, pregnant, or nursing animals. Contaminated utensils should not be used for food purposes after use with insecticides. Avoid applying to bare skin. If reaction occurs, wash dog with soap & water.

**Note to Physicians or Veterinarians:** Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection, is the preferable antidote.

**FIRST AID**

**IF SWALLOWED:** Call a physician or Poison Control Center immediately. Drink 1 to 2 glasses of water and induce vomiting by touching the back of throat with finger. Do not give anything by mouth to an unconscious person.

**IF IN EYES:** flush eyes with plenty of water and get medical attention, if irritation persists.

**IF ON SKIN:** remove contaminated clothing and wash skin with soap and water.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal. Store in original container in a locked area. Do not reuse empty container. Wrap container and put in trash collection.
